STATEMENT OF WORK

Administrative Support Services

Prepared by:
United States Coast Guard, CG-AIR
1664 Weeksville Road Bldg 63
Elizabeth City, NC 27909

1.0 GENERAL

1.1 Background

The United States Coast Guard (USCG), CG-AIR's (to include the Aviation Logistics Center (ALC), Aviation Projects Acquisition Center (APAC), and Office of Aeronautical Engineering (CG-AIR-E)) primary mission is to conduct depot level maintenance of USCG aircraft, and aircraft flown by other Government Agencies as required. Administrative support services are needed to provide assistance in the following Areas of Responsibility (AORs), to include by not limited to: Aviation Logistics Division (ALD), Business Operations Division (BOD), Safety and Environmental Health Office (SEHO), Chief of Contracting Office (COCO), Short Range Recovery (SRR) Product Line, Engineering Services Division (ESD), Information Systems Division (ISD), Industrial Operations Division (IOD), Long Range Surveillance (LRS) Product Line, Medium Range Recovery (MRR) Product Line, Medium Range Surveillance (MRS) Product Line, and Operations Division (OPS).

1.2 Scope

This Statement of Work (SOW) defines contractor support as providing Procurement Administrative Support Services and Administrative Support Services.

The Department of Labor Service Contract Act (SCA) Occupation Code 01020, Administrative Assistant, will be used for the Procurement Technician and Administrative Assistant requirements. At the discretion of the COCO, Procurement Technicians will be assigned to various product lines and divisions throughout CG-AIR. These positions will support procurement operations by assisting procurement personnel with administrative duties and performing clerical and technical work that supports the procurement of supplies and services. These positions shall not in any way bind the Government contractually.

This contract will also provide general administrative support services to various divisions throughout CG-AIR. The contract includes, but is not limited to, the services identified throughout the SOW include other tasks and services that are directly related to the operation of assigned aircraft, industrial product lines, or administrative support functions as described in the SOW (such as attending meetings, providing additional documentation, or providing administrative support for new initiatives, etc.) that the Government may direct on an "as required" basis. All Government-directed tasks shall be specific to the operation of assigned aircraft, an industrial product line, or other Air-related functions. All additional tasks will be initiated through written direction from the Contracting Officer (KO) or Contracting Officer Representative (COR) to the Program Manager and must fall within the scope of the contract. Tasks requiring significant changes to the scope, staffing, or resources will require a formal contract modification.

Remainder of page intentionally left blank

1.2.1 The full-time equivalents in the table below are based on the historical labor mix to perform this requirement:

Labor Category*	Estimated Labor Mix
Administrative Assistants	10
Administrative Assistant – OPS	1
Administrative Assistant – CG-AIR-E	1
General Clerk III	3
Logistician II	1
Logistician III	7
Procurement Technician	14
Protocol Specialist	1
Requirements Logistician III	10
Senior Procurement Technician	1
Training Specialist	1

** Positions may or may not be funded at any time during the contract period of performance.*

1.2.2 During the life of the contract, the USCG will continuously monitor its needs to ensure the proper number of positions and mix of skills are being provided. In the event the USCG requires additional personnel due to new requirements or a change to the labor mix is required, the KO will notify the contractor and negotiate the changes.

1.2.3 The contractor will fill the positions using the procedures specified for replacement of personnel in Section 5.2 of this document.

1.3 Objective

The objective of this requirement is to obtain contractor support to provide procurement administrative support and administrative support services as required for normal operations of CG-AIR and other tasks as required by the Government. The contractor shall provide technical guidance to their staff for unusual or non-recurring events and seek guidance from the Government (Government meaning KO, Contract Specialist (CS), and/or COR) when necessary.

1.4 Applicable Documents

1.4.1 Compliance Documents

The documents (listed in no particular order) identified in Sections 1.4.1.1 through 1.4.1.2 provide specifications, standards, or guidelines that shall be complied with to meet the requirements of this SOW.

The ALC, Department of Homeland Security (DHS), and USCG regulations, instructions, directives, orders, and special procedures to include specific detailed guidelines including desk guides, Standard Operating Procedures (SOP), checklists, codebooks, and oral or written instructions.

1.4.1.1 Regulations, Manuals, Procedures, Handbooks, Directives, and Commandant Instructions (COMDTINST)

1.4.1.1.1	DHS Management Directive (MD) 11042.1 (Jan. 2005) – Safeguarding Sensitive but Unclassified (For Official Use Only) Information
1.4.1.1.2	DHS MD 140.01, Revision 2 (May 2017) – Information Technology (IT) Systems Security
1.4.1.1.3	DHS 4300A (Dec. 2023) – Sensitive Systems Handbook
1.4.1.1.4	DHS MD 11005 (Mar. 2006) – Suspending Access to DHS Facilities, Sensitive Information, and IT Systems
1.4.1.1.5	COMDTINST 5375.1B (Aug. 2022) – Limited Personal Use of Government Office Equipment
1.4.1.1.6	COMDTINST M5216.4E (Feb 2024) – Correspondence Manual
1.4.1.1.7	Workplace Violence and Threatening Behavior (Mar 2021)
1.4.1.1.8	COMDTINST M3710.1I (Mar 2021) – Coast Guard Air Operations Manual
1.4.1.1.9	COMDTINST M13020.1H (May 2019) – Aeronautical Engineering Maintenance Management
1.4.1.1.10	COMDTINST M7220.29D (Nov 2019) – Coast Guard Pay Manual, Chapter 5 Incentive Pay
1.4.1.1.11	Federal Acquisition Regulation (FAR)
1.4.1.1.12	Homeland Security Acquisition Regulation (HSAR)
1.4.1.1.13	Department of Homeland Security Acquisition Manual (HSAM)
1.4.1.1.14	Coast Guard Acquisition Procedures (CGAP)
1.4.1.1.15	DHS 4300A (Dec 2023) – Sensitive Systems Handbook
1.4.1.1.16	COMDTINST 5375.1E (Aug 2022) – Limited Personal Use of Government Office Equipment
1.4.1.1.17	Occupational Safety and Health Administration (OSHA) (Public Law 91-596)
1.4.1.1.18	OSHA Standard 29 Code of Federal Regulation (CFR) 1910
1.4.1.1.19	Title 40 CFR Protection of Environment
1.4.1.1.20	Title 15A North Carolina Administrative Code (NCAC) Environmental Quality
1.4.1.1.21	40 CFR Part 302

1.4.1.2.1	ALCINST 11240.1M, (Feb. 2025) – Use of ALC General Services Administration (GSA) Vehicles
1.4.1.2.2	ALCINST 5320.1, (Mar 2025) – ALC Check-In, Check-Out and Internal Transfer Procedures and the Workforce Accountability List (WAL)
1.4.1.2.3	ALCINST 5100.48F, (Jun 2025) – Safety and Occupational Health Program Manual
1.4.1.2.4	ALCINST 5224.3F, (Feb 20205) – Control of Records
1.4.1.2.5	ALCINST 5224.1I, (Jan 2025) – Business Management System
1.4.1.2.6	ALCINST 5224.9B, (Feb 2025) – New Employee Orientation

1.4.1.2.7	ALCINST 5330.1D, (Feb 2025) – Reporting for Duty During Inclement Weather Conditions
1.4.1.2.8	ALCINST 5530.1B, (Feb 2025) – Physical Security Plan
1.4.1.2.9	ALCINST 5760.1C, (Feb 2025) – Visit Requests from Vendors and Potential Vendors
1.4.1.2.10	ALCINST 5216.1P (Jun 2013) – Preparation of Correspondence
1.4.1.2.11	ALCINST 13020.1E (Feb 2025) – ALC Aircraft Maintenance Qualification Procedures
1.4.1.2.12	ALCINST 3710.1T (Apr 2025) – ALC Air Operations
1.4.1.2.13	ALCINST 5224.4F (Mar 2020) – Competence, Awareness and Training

1.4.2 Availability of Documents

The documents listed herein (Section 1.4.1) refer to various documents that could be utilized throughout contract performance and will not be provided with the solicitation. Before obtaining copies of these documents, the Contractor must be registered in the Defense Logistics Agency's (DLA) Joint Certification Program (JCP). More information on this certification be found at <https://www.dla.mil/HQ/LogisticsOperations/Services/JCP/>. After ensuring registration by providing a copy of the DLA JCP certification, the Contractor will complete DHS Form 11000-6, Sensitive but Unclassified Information Non-Disclosure Agreement (NDA) and return with a written request to Charles.E.Leslie2@uscg.mil.

The USCG will only release the documents to United States (U.S.) businesses that have followed the above procedures. The documents will not be released to any foreign entity. If the U.S. business plans to release the documents to any foreign entity, they will first provide the USCG with a copy of a valid Technical Assistance Agreement and DSP-5 authorizing release to that entity.

1.5 Contracting Officer's Representative (COR)

The COR is responsible for the technical administration of the contract and is the technical liaison with the contractor. The COR IS NOT authorized to change the scope of work or specifications as stated in the contract, to make commitments or otherwise obligate the Government, or authorize any changes which affect the contract price, delivery schedule, period of performance, or other terms and conditions.

1.5.1 The KO is the only individual who can legally commit or obligate the Government for the expenditure of public funds. Technical administration of this contract will not be construed to authorize revision of the terms and conditions of this contract. Any such revision will be authorized in writing by the KO.

1.5.2 An alternate COR may also be appointed to this contract.

1.5.3 The COR, and alternate COR if required, will be appointed at the time of contract award. In the absence of the primary COR, all responsibilities and functions assigned to the COR will be the responsibility of the alternate COR.

2.0 SPECIFIC REQUIREMENTS/TASKS

2.1 Tasking

This contract will support supply, procurement, and administrative duties across CG-AIR. Tasking is subject to move between product lines or divisions with little notice. The duties include, but are not limited to, the functions described in Section 3.0 of this document.

2.2 Surge Work

Surge Work is typically non-recurring work within the general scope of the contract but is not included in the firm-fixed price (FFP) requirements. When required, the USCG will ask the contractor for a quotation for the additional services. Once the two (2) parties have reached an agreement, a bilateral modification for the work will be issued. Surge Work may be FFP, labor hour, or a combination. Surge Work may include specific work requirements or training required by the Government due to a change in software, hardware, or procedures.

2.2.1 Composite Labor Rates

The composite labor rates are fully burdened hourly labor rates inclusive of all direct and indirect costs and profits. These rates will be utilized to develop the pricing for surge work. The Contractor's quotation for surge work will provide sufficient detail for a determination of price reasonableness by the KO. Additional information may be required at KO's discretion.

3.0 EXPERIENCE/QUALIFICATIONS

The contractor will be fully proficient at the required services at the time of contract award and will maintain full proficiency for the life of the contract. The contractor will accomplish the assigned tasking by employing and utilizing qualified personnel with the appropriate combination of education, training, and experience.

3.1 Minimum Qualifications for All Positions

- Be citizens of the U.S.
- Possess the ability to read, write, speak, and comprehend English.
- Possess excellent written and verbal communication skills.
- Possess knowledge and ability to perform simple arithmetic.
- Possess knowledge of Microsoft Office applications.
- Possess excellent ability to manage multiple task with competing deadlines.
- Possess ability to work with minimal Government oversight.

3.2 Highly Desirable Qualifications for All Personnel

One (1) year experience in USCG procedures to include proficiency in using:

- Aviation Logistics Management Information System (ALMIS)
- Asset Maintenance Management Information System (AMMIS)

3.3 Administrative Assistant (Department of Labor, SCA Occupation Code: 01020)

The primary task of this position will be to perform a variety of routine administrative and office support tasks, respond to customer service inquiries and provide administrative support to the assigned organizational function. This is accomplished by receiving, screening, and directing

telephone calls and visitors, entering and updating divisional information, maintaining reports and logs, managing incoming and outgoing correspondence and documents, and completing other related clerical activities. The contractor shall provide Administrative Assistant support to the respective division as follows, which may not be all inclusive:

3.3.1 Administrative Assistant Duties

Duties include, but are not limited to:

- **Provide receptionist support and accomplish the clerical and administrative functions to include:**
 - Assist with scheduling meetings and TEAMS calls and providing support for related activities.
 - Establishing and maintaining office files (both paper and electronic) and divisional and management calendars in accordance with (IAW) USCG and local command procedures.
 - Acting as the Point of Contact (POC) for visitors and responding to non-technical inquiries, while directing technical calls to the appropriate individual.
 - Arranging and attending division staff meetings, as needed, taking meeting minutes, and following up as needed to ensure action items are completed as scheduled.
 - Participating in the Events Team to assist with ceremonies or visits at ALC, working with Protocol Specialist or the Command Secretary.
 - Maintaining, updating and submitting support requests.
 - Other duties as assigned refers to additional tasks that are directly related to the scope of work outlined in the SOW.
 - Examples include preparing reports, attending meetings, managing correspondence, or supporting related projects within the assigned division.
 - All additional duties must be assigned by the designated AOR, COR, or KO, and must fall within the scope of the contract.
- **Maintain Personnel Information to include:**
 - Managing employee records, accident reports, performance appraisals, job descriptions, and other personnel-related documents.
 - Providing basic information on personnel matters such as training, leave, benefits, and other job-related procedures.
 - Preparing and maintaining a log of all travel and training requests for division-funded activities. Assisting with creating travel authorizations, reviewing travel claims upon receipt, and notifying employees of any required changes or corrections.
 - Developing Hiring Panel Packages.
 - Updating and maintaining command Divisional Rosters (Organizational Charts) by ensuring personnel information is kept current and removing personnel who leave the command.
 - Managing CG-AIR Distribution lists within USCG One (CGOne).
 - Ensuring that competency mapping is completed if the admin is assigned to a Technical Evaluation Team (TET).
 - Adding new employees to the current Employee Notification System upon check-in.
 - Maintaining Regroup rosters for assigned AOR.

- **Develop and maintain databases to include:**
 - Designing and managing electronic document workflow.
 - Assisting and working with the SharePoint Developer/Administrator to transition and manage division correspondence and workflows in Microsoft SharePoint.
 - Developing and maintaining rudimentary databases that automate manual organizational functions (i.e., document archives, phone lists, personnel assignments, spreadsheets, document and correspondence routing, and USCG Portal websites).
 - Developing methods to automate recurring reports.
 - Modifying existing automated systems to update functionality or correct problems.
 - Preparing templates for division newsletters, brochures, reports, and briefings utilizing Microsoft Publisher.
 - Preparing and distributing various reports and distilling disparate report elements into a well-organized and easily understood presentation of graphical and narrative elements.
 - Publishing and maintaining reports and division material to the USCG Portal website.
 - Improving organization and retrieval of office correspondence, printing labels, and batched letter production.
 - Developing sequencing for spreadsheets and databases to automatically update, revise, calculate, and retrieve information for organizational reports.
 - Providing administrative support and producing USCG correspondence, documents, spreadsheets, and graphics as requested for division support.
 - Managing physical document archives.
 - Ensuring structured tracking via the ALC eRouter.
 - Ensuring that all correspondence is fully processed and filed per the division's leadership, as well as transferring of archives to federal document repository IAW the USCG Records Management Program.
- **Clerical Functions to include:**
 - Supporting office productivity by stocking and submitting purchase requests for office supplies in applicable application/system and maintaining office equipment.
 - Assisting with acquiring and disposal of government furnished supplies and equipment within current USCG policies.
 - Establishing orders, receiving, recording, and distributing technical publications.
 - Performing scheduled and routine technical publication audits IAW applicable USCG policies.
 - Maintaining division Internet/Intranet presence by uploading files to the division web site and ensuring that all materials displayed on the web are current and up to date.
 - Responsible for the timely submission of heat tickets/work requests for divisional issues.
 - Assisting with monitoring divisional budgets, to include building Procurement Request (PR) with information provided by government personnel.
 - Responsible for the upkeep, organization, and cleanliness of the administrative office area, supply cabinets, copy area, and conference rooms.
 - Drafting letters, memoranda, and responding to non-technical inquiries.

- Reviewing divisional correspondence for grammatical accuracy, punctuation, format, etc., and ensuring suspense dates are met.
- Establishing, maintaining controls, and following up to ensure timely accomplishment, distribution, submission, and review of correspondence, reports, and other documents.
- Providing control of division directives ensuring the correct routing, currency and clerical accuracy of the documents.
- Reviewing outgoing mail for enclosures, dates, signatures IAW the USCG Correspondence Manual COMDTINST M5216.4 and USCG ALCINST 5216.1.
- **Serve as timekeeper for Government employees in GovTA, to include:**
 - Resolving discrepancies
 - Addressing inquiries
 - Managing delegate assignments, supervisor designations, and employee accounts (e.g., unlocking/resetting passwords).
 - Setting and updating default schedules for employees.
 - Creating and managing Work Time transactions, including entering work hours once transactions are created.
 - Generating biweekly reports such as unvalidated/uncertified timecards and review leave audit reports.
 - Printing weekly approved leave reports and validating timecards upon AOR request.
 - Assisting with correcting timecards and adding holidays or administrative time when necessary.
 - Annually update accounting data and review the Time and Attendance Summary.
- **Training Requirement to include:**
 - This role requires the completion of online training provided at the USCG's expense. While Contractor employees may not supervise USCG personnel, they are permitted to serve as timekeepers since this is a ministerial function involving the input of time and leave approved by the USCG employees' supervisor.

***Note:** The timekeeper has access to information protected by the Privacy Act, such as social security numbers and other personal information. The USCG protects this information through putting the appropriate Privacy Act clauses in the contract. (FAR Part 24) The contractor employee can act as timekeeper with the appropriate contract clauses. The USCG supervisor must approve all leave and certify time for payment.*

The Administrative Assistant may be required to work independently on projects requiring research and preparation of briefing charts and other presentation materials, as well as delivery and tracking of PRs to the appropriate procurement staff.

3.3.2 Administrative Assistant Qualifications:

The Administrative Assistant must meet all qualifications listed in section 3.1, as well as the following:

- Proficiency in the Microsoft Office suite including, but not limited to, Microsoft Word, Microsoft Excel, Microsoft Power Point and knowledgeable of Microsoft SharePoint, Microsoft Publisher, Microsoft Teams and Adobe Acrobat Professional.
- Excellent interpersonal, written, and oral communication skills.
- Strong analytical, problem solving, organizational, grammar and planning skills.
- Ability to prioritize, organize, and manage tasks in a multitasking environment.
- Ability to commit and maintain the highest level of confidentiality. (Note: Any breach in confidentiality will result in the USCG requiring replacement of the individual in this position.).
- Perform detailed work on multiple, concurrent tasks, with frequent interruptions and under time constraint.
- Physical requirements may include stooping, reaching, standing, walking, and/or sitting for extended periods of time; pushing and/or pulling objects weighing up to thirty (30) pounds; and lifting and carrying objects weighing up to twenty (20) pounds.
- Frequent activities may involve climbing stairs, kneeling, and/or crouching to retrieve files and other items.

3.3.3 Highly Desired Qualifications:

- At least one (1) year of experience in USCG procedures to include USCG aeronautical practices as defined in COMDTINST 13020.1.
- Microsoft Certified Solutions Expert certification for Microsoft SharePoint 2010 or newer.

3.4 Administrative Assistant CG-AIR-E (Department of Labor, SCA Occupation Code: 01020) (Place of Performance is Washington, DC)

The Administrative Assistant for CG-AIR-E will perform all the duties in Section 3.3.1 as well as the following, but are not limited to:

- Maintaining organizational automation tools, a Technical Library, an electronic document repository, and providing ALMIS reports to CG-AIR-E.
- Developing and maintaining application productivity enhancements that increase CG-AIR-E's efficiency and effectiveness, including spreadsheets, multimedia presentations, databases, and other productivity tools.
- Serving as the Technical Information Management and Ordering System (TIMOS), Aviation Technical Information Portal (ATIP), and Aircraft Configuration Control Board (ACCB) POC for USCG Headquarters and provide TIMOS, ATIP, ACCB support for USCG Headquarters.

3.4.1 Required Qualifications:

- At least two (2) years' experience in USCG procedures to include USCG aeronautical practices as defined in COMDTINST 13020.1 utilizing ALMIS.
- Must have demonstrated experience with ALMIS reports.

3.4.2 Highly Desired Qualifications:

- TIMOS/ATIP management.

- Network Administration.

3.5 Administrative Assistant for OPS Division (Department of Labor, SCA Occupation Code: 01020)

The OPS Division is responsible for maintaining aviation specific training records for personnel employed/assigned to the ALC. Maintaining those records requires systematic administration and strict attention to detail to ensure timely compliance with USCG regulations.

The Administrative Assistant for the OPS Division will perform all the duties in Section 3.3.1 as well as the following, but are not limited to:

- Aviation Training Program Management:
 - Ensuring continuity of the Aviation Training Program.
 - Managing complex training issues.
 - Conducting periodic reviews and revisions of current instructions.
 - Maintaining continuity to military Operation personnel.
- Training Liaison:
 - Serve as liaison between training commands, Flight Examining Boards, and station personnel throughout the training process.
- Primary POC:
 - Serving as the primary POC on training and training record/flight pay administration questions IAW COMDTINST M3710.1.
 - Drafting and updating training records and providing guidance to personnel regarding standards and requirements to maintain ground and flight designation and qualifications.
- Ground Support Equipment Management:
 - Developing and maintaining a mast list of all ground support equipment used by licensed military, civilian, and contractor personnel at CG-AIR.
 - Providing quarterly updates of initial qualifications and expiration dates to the BOD at ALC by the 15th of March, June, September, and December each year.
- Training Records System:
 - Creating and maintaining training records for each aircraft type.
 - Providing updates to training software for OPS and Flight Examining Board Members.
- Flight Training Oversight:
 - Tracking flight training requirements and currency by systematically reviewing pilot and aircrew training records for military and Operational Contract Pilots IAW COMDTINST M3710.1.
 - Assisting the Operations Office with incoming ALC pilot requirements by providing training data and coordinating qualification courses.
- Scheduling and Monitoring:
 - Scheduling all training requirements IAW COMDTINST M3710.1.
 - Monitoring pilots' 30-day warm-up requirements and notifying members before expiration.
 - Coordinate pilot simulator and proficiency courses with the ALC Training Coordinator.
- Publication and Documentation Management:

- Distributing publication updates to all ALC pilots and air crews.
- Assisting the Aviation Incentive Pay Administrator in managing Hazardous Duty Incentive Pay by maintaining files, records, and documentation.
- Providing electronic authorization for individuals to obtain protective flight clothing.
- Instruction and Policy Updates:
 - Reviewing and revising ALCINSTs, syllabi, and standardization check forms as needed for approval.
 - Developing new instructions, syllabi, and standardization check forms IAW COMDTINSTs and policies.
- Maintenance Qualifications:
 - Managing maintenance qualifications for military and civilian personnel.
 - Maintaining records for pilots, aircrews, and employees (military, civilian, and contractor), including maintenance qualifications.
- Personnel Training Records:
 - Scheduling training requirements IAW applicable Commandant and ALCINSTs, including COMDTINST M3710.1.
 - Receiving and transferring personnel training records.
- Customer Service and Database Management:
 - Assisting the Unit Training Officer (UTO) in managing and resolving customer complaints.
 - Monitoring and maintaining databases while supporting audit teams with data requirements.
- Annual Curriculum Review:
 - Conducting annual reviews of legal and other applicable requirements to ensure training curriculum remains up to date.
 - Recommending changes as necessary.

3.5.1 Required Qualifications:

In addition to the requirements in Section 3.3.2, the OPS Administrative Assistant will have the following qualifications:

- Ability to perform normal administrative functions.
- Ability to speak in front of large groups.
- Ability to produce formal documents and reports.
- At least two (2) years' experience in USCG procedures to include USCG aeronautical practices as defined in COMDTINST M13020.1 utilizing ALMIS.
- Demonstrated experience with ALMIS reports.
- Familiar with the following instructions:
 - COMDTINST M5216.4
 - COMDTINST M3710.1
 - COMDTINST M13020.1
 - COMDTINST M7220.29
 - ALCINST 13020.1
 - ALCINST 3710.1
 - ALCINST 5224.4

3.6 General Clerk III (Department of Labor, SCA Occupation Code: 01113)

This position requires subject-matter knowledge and judgment to complete assignments involving numerous steps that vary in complexity and sequence. Responsible for choosing alternative methods and referring to problems that cannot be solved by adapting or interpreting existing guides, manuals, and/or procedures.

3.6.1 General Clerk III Duties

Duties include, but are not limited to:

- Assisting with administrative matters.
- Maintaining a variety of financial or other records both manually and electronically.
- Verifying statistical reports are accurate and complete.
- Gathering and organizing relevant information.
- Addressing and resolving complaints as required.
- Entering industrial time for contractors and civilian employees in applicable database(s).
- Entering industrial time in the ALMIS Contractor Time for contract employees.
- Entering industrial time in AMMIS for all civilian employees working within applicable division.
- Updating status information for SRs in the SR Database.
- Completing closeout paperwork for completed SRs.
- Monitoring and correcting punches in Timeforce timekeeping system as it is implemented across additional IOD shops.
- Generating reports from government databases for use by personnel in making component repair decisions.

3.6.2 General Clerk III Qualifications

The General Clerk III must meet all qualifications outlined in Section 3.1, as well as the following additional requirements:

- Hold a high school diploma or equivalent and have at least two (2) years of experience in data entry.

3.7 Logistician II (Professional Position)

The Logistician II position is responsible for providing supply and logistical support services. This role requires the knowledge, skills, and expertise necessary to offer technical guidance on the usage, repairability, and compatibility of aircraft parts and equipment.

3.7.1 Logistician II Duties

Duties include, but are not limited to:

- Assessing equipment maintenance and logistics support requirements for USCG aircraft.
- Submitting Supply Item Change Requests (SICR).
- Preparing and providing documentation to support procurement actions.
- Reviewing and analyzing data to determine item interchangeability or substitution options.
- Evaluating logistical support plans for feasibility, efficiency, and cost-effectiveness.
- Collaborating with engineering staff to review special inventory requirements.

- Analyzing forecasting model outputs.
- Working with Engineering and Procurement teams on supply-related issues, including sources, databases, unit costs, and optimal stock quantities.
- Using AMMIS and ALMIS systems to generate requirements documents, creating Unsatisfactory Reports for approval by Government personnel, and monitor aviation inventory.

3.7.2 Logistician II Qualifications

The Logistician II must meet all qualifications outlined in Section 3.1, as well as the following additional requirements:

- Hold a high school diploma or equivalent and have at least five (5) years of experience in supply/logistics.
- Have a minimum of five (5) years of experience managing tasks such as registration coding, inventory consolidation, long lead-time items, support items, items with multiple sources of supply, and items with proprietary data issues.
- Possess at least five (5) years of aviation inventory management experience beyond the role of a Supply Technician (i.e., Material Coordinator, Inventory Manager).
- Be knowledgeable about USCG or Department of War (DoW) aircraft logistics support practices and procedures.

3.8 Logistician III (Professional Position)

Logistician III is responsible for overseeing all aspects of the kitting process to support Programmed Depot Maintenance (PDM). Key duties include identifying areas of concern and reporting them to the Supply Division (e.g., Item Manager, Supply Branch Chief). This role requires the ability to identify supply-related (full kit) issues, gather necessary data, and take steps to prevent operations delays. Accurate record-keeping is essential, including maintaining organized files for “due in” components. Participation in “Lean Events” may also be required.

This position demands a strong understanding of customer service principles and processes, including assessing customer needs, ensuring quality standards, and evaluating customer satisfaction. This position requires integrity, dependability, excellent verbal communication skills, and the ability to work independently or lead a team effectively.

3.8.1 Logistician III Duties

Duties include, but are not limited to:

- Attending daily/weekly meetings including Theory of Constraints, Issue Resolution, Full Kit, and Industrial Team Meetings, and reporting any supply/kitting issues affecting the PDM production schedule.
- Reviewing logistics performance with customers against established targets, benchmarks, and service agreements.
- Collaborating with other departments to meet customer requirements and minimize negative impacts on the Product Line and/or Air Stations.
- Evaluating material, supply, and finished product availability and allocation to maximize value and reduce costs.
- Building and maintaining positive business relationships with key personnel involved in logistics activities.

- Presenting proposed solutions to customers, management, or other stakeholders through written proposals and oral presentations.
- Staying updated on logistics technology advancements and applying them to improve processes.
- Estimating quantities, costs, resources, and materials needed for PDM full kitting.
- Ensuring proper receipt of equipment and materials.
- Identifying and resolving inventory discrepancies, making necessary kit adjustments.
- Reporting full kit plans, progress, and delays.
- Monitoring incoming components and supplies, verifying proper identifying documentation.
- Maintaining kit inventory status in Concerto and on respective cabinets and inventory control points.
- Conducting quarterly kit reviews to ensure items are correctly identified (e.g., aircraft-specific, supply candidate, hangar deck items, supply, Auto 6000).
- Performing daily maintenance of two-bin inventory systems.
- Organizing and updating the tag bible for all routed assets.
- Responding to inquiries regarding kit status.
- Reporting back orders or delays in full kitting to managers or other personnel.
- Developing training materials and process guides for full kit processes and conducting internal audits.
- Protecting and controlling proprietary materials handled at CG-AIR.
- Support monthly updates to technical manuals (ATIP).

3.8.2 Logistician III Required Qualifications

In addition to the qualifications in Section 3.1, Logistician III will have the following:

- Hold a high school diploma or equivalent and have at least ten (10) years of experience in supply/logistics.

3.8.3 Logistician III Desired Qualifications:

Intermediate experience with the following:

- ALMIS
- AMMIS
- Critical Chain Project Management Tool (Concerto)
- Theory of Constraints (Concerto).

3.9 Procurement Technician (Department of Labor, SCA Occupation Code: 01020)

The Contractor will provide support services to assist the COCO with procurement operations for the ALC. Staff provided by the Contractor must be skilled in the procurement process and have knowledge and experience in government contracting policies and procedures. The Contractor will offer technical guidance to their staff for unusual or infrequent situations and consult with the Government (including the KO, Supervisory KO (SKO), CS, and/or COR), when required.

At the discretion of the COCO, Procurement Technicians may be assigned to various product lines and divisions within CG-AIR. These roles will support procurement operations by assisting

procurement personnel with administrative tasks and performing clerical and technical duties related to the procurement of supplies and services. These positions do not have the authority to bind the government contractually in any way.

3.9.1 Procurement Technician Duties

Duties include, but are not limited to:

- General Procurement Support
 - Applying knowledge of contract clauses, provisions, laws, regulations, and policies.
 - Ensuring solicitation packages include necessary information and supporting documentation, such as Service Contract Labor Standards, Prompt Payment Act, progress payments, and first article test requirements.
 - Monitoring contractor compliance with contract terms and conditions using procurement regulations and policies.
 - Updating and maintaining procurement documents, regulations, manuals, and related information.
 - Reviewing procurement files to ensure inclusion of required documents and information.
 - Assisting in determining applicable laws, regulations, clauses, and provisions.
 - Using standardized procurement procedures and operations across various phases and functions.
 - Utilizing automated and manual procurement systems to manage and correct routine information.
 - Supporting purchase transactions by applying knowledge of procurement procedures and forms.
- Procurement Files, Documentation, and Procedures
 - Organizing contract file information (hardcopy and electronic) and entering contract data into management systems.
 - Sorting, compiling, typing, and distributing requisitions, contracts, orders, modifications, and supporting documentation.
 - Maintaining vendor mailing lists in management systems by adding or deleting information.
 - Preparing, verifying, abstracting, controlling, and closing out procurement documents, files, reports, and records.
 - Ensuring procurement documents include accurate information and terminology.
 - Verifying signatures, accounting codes, item descriptions, quantities, and prices, and identifying missing information.
 - Preparing routine procurement forms for purchases.
 - Routing messages and documentation accurately within the workplace.
 - Inputting and adjusting standard information in automated procurement databases.
 - Maintaining procurement files and assisting in developing procurement procedures.
 - Performing additional tasks to support procurement operations.
- Deliveries and Discrepancies

- Investigating and resolving issues with shipments, payments, contract documentation, and other discrepancies.
- Researching errors and conflicting information in procurement documentation.
- Contacting vendors to check order status and expedite deliveries.
- Tracking requisitions, contracts, orders, and modifications using automated/manual systems and by contacting vendors or Requiring Activity.
- Validate undelivered orders using the USCG Open Obligations Management Tool (OOMAT).
- Researching errors, investigating complaints, and resolving issues related to procurement financial functions, inventory management, cataloging, transportation, and supply.
- Reconstructing and reconciling incomplete information and addressing recurring error reports.
- Generating standard reports, such as tracking procurement awards, modifications, and other actions.
- Invoices, Data Calls and Other Duties
 - Downloading, sorting, and reviewing vendor invoices for accuracy against purchase orders, contracts, task/delivery orders, and modifications.
 - Researching and responding to data calls.
 - Assembling and preparing procurement management reports by consolidating relevant information.
 - Performing other assigned duties within the scope of the contract.

3.9.2 Procurement Technician Qualifications:

The Procurement Technician must meet all qualifications outlined in Section 3.1, as well as the following additional requirements:

- Possess knowledge of procurement regulations, procedures, operations, and programs related to one (1) or more procurement phases or functions.
- Possess knowledge of the various steps and procedures required to provide a full range of procurement support related to recurring and standardized purchases for commonly used supplies and services.

***Note:** The Contractor shall ensure at least fifty percent (50%) of the Contractors performing in support of this contract possess a 4-year course of study leading to a bachelor's degree with a major in any field or at least twenty-four (24) semester hours in any combination of the following subjects: accounting, business, finance, law, contracts, purchasing, economics, industrial management, marketing, quantitative methods, or organization and management.*

3.10 Senior Procurement Technician (Professional Position)

The Contractor will provide support services to assist the COCO with procurement operations for CG-AIR. Staff provided by the Contractor must be proficient in the procurement process and have knowledge and experience in government contracting policies and procedures. The Contractor will offer technical guidance to their staff for unusual or infrequent situations and consult with the Government (including the KO, SKO, CS, and/or COR), when required.

At the COCO's discretion, the Senior Procurement Technician will support the assigned division and tasks outlined in the contract's Schedule of Services. This role will assist procurement personnel by handling administrative duties and performing clerical and technical tasks related to the procurement of supplies.

3.10.1 Senior Procurement Technician Duties:

The Senior Procurement Technician will support the assigned division and tasks outlined in the contract's Schedule of Services. In addition to the requirements specified in Section 3.1, the Senior Procurement Technician will perform the following duties, but are not limited to:

- Providing training, guidance, and job-shadowing for contractor Procurement Technicians.
- Handling complex or high-value small purchase procurement actions.
- Developing and maintaining training materials and procurement templates for small purchase procurements in assigned product lines or divisions within CG-AIR.

3.10.2 Senior Procurement Technician Qualifications:

The Senior Procurement Technician must meet all qualifications outlined in Section 3.1, as well as the following additional requirements:

- Possess knowledge of procurement regulations, procedures, operations, and programs related to one (1) or more procurement phases or functions.
- Possess knowledge of the various steps and procedures required to provide a full range of procurement support related to recurring and standardized purchases for commonly used supplies and services.

3.11 Protocol Specialist (Professional Position) (Key Personnel)

The Contractor will use approved plans to complete the tasks outlined for this effort, ensuring the desire quality of service. These tasks may not cover everything required but will serve as a guide. Additionally, the Protocol Specialist may occasionally need to work outside of normal business hours, with the schedule adjusted accordingly as outlined in Section 11.3.

3.11.1 Protocol Specialist Duties

Duties include, but are not limited to:

- ALC tours:
 - Organizing and coordinating base-wide tours, including itineraries and transportation, for distinguished visits (i.e., Congressional staff, USCG Flag Officers, DHS Staff, other governmental agencies, etc.).
 - Conduct weekly tours (or when scheduled) for newly hired employees, visitors, and others as directed by the Command.
 - Leading specialized tours of ALC for visiting groups (i.e., civic organizations, government representatives, schools, and other designated groups).
- Guest Escort and Itineraries
 - Greeting arriving aircraft.
 - Arranging for transportation for visitors.
 - Escorting guests throughout the base complex.
 - Managing and coordinating visitor itineraries.
- Command Briefings, Meetings and Conference Rooms:
 - Setting up and operating audio/visual equipment for meetings.

- Managing and coordinating the schedule for the Commanding Officer's Conference Rooms, including operating equipment, updating metric boards, and handling related tasks.
- Attending designated meetings as directed by the CG-AIR Command, recording minutes, and publishing them.
- Maintaining and updating weekly briefing materials.
- Keeping the Command Brief (ALC101) current and accurate.
- Regularly attend meetings as required.
- Ceremonies, Social Functions, and Events at CG-AIR (or other USCG domains as needed)
 - Planning and managing ceremonies, including retirements, promotions, awards, and other events. This includes handling invitations, scripts, speeches, and programs as needed.
 - Providing support on protocol matters, particularly with invitations, scripts, and programs.
 - Organizing and assisting in hosting social functions for the Wardroom (Officers).
 - Coordinating the recognition program for Enlisted Person of the Quarter, working with USCG Public Affairs, and local media.
- Assisting the CG-AIR Commanding Officer's Secretary.
- Assisting with other ALC and Command Administrative duties.

3.11.2 Protocol Specialist Qualifications:

The Protocol Specialist must meet all the qualifications outlined in Section 3.1, in addition to the following:

- Obtain the Military/DoW Protocol Specialist certification within twelve (12) months of hire. Proof of certification must be submitted upon completion.
- Two (2) years' experience of protocol and event planning. This includes applying protocol and etiquette to organize events, coordinate ceremonies, and manage receptions, while considering the status of dignitaries, military and civilian representatives, and high-ranking officials.

3.12 Requirements Logistician III (Professional Position)

The Requirements Logistician III will independently manage the analysis, development, and implementation of requirements for various divisions within CG-AIR.

3.12.1 Requirements Logistician III Duties

Duties include, but are not limited to:

- Collaborating with CG-AIR personnel and other commands to identify requirements.
- Conducting market research and planning projects.
- Preparing requisition packages, including SOW, Performance Work Statements, or Objectives, and other acquisition documents.
- Ensuring requisition packages comply with regulations, policies, and audit requirements.
- Tracking action items, updating customers on project status, and managing acquisition information.
- Reviewing deliverables for technical accuracy.

- Managing multiple tasks simultaneously, creating schedules, and developing plans and milestones.
- Drafting correspondence, reports, white papers, meeting minutes, spreadsheets, briefs, and other documentation as needed.
- Developing methods, plans, and documents to streamline procedures, improve operations, reduce costs, and support long-term planning for effective program/project results.

3.12.2 Requirements Logistician III Qualifications:

The Requirements Logistician III must meet all the qualifications outlined in Section 3.1, in addition to the following:

- Bachelor's degree in Business, Accounting, Logistics, Procurement, Supply Chain Management, Project Management, or a related field; OR
- High School Diploma with at least three (3) years' experience in Procurement, Logistics, Program Management, Supply Chain Management, Legal, or a related field.

3.12.3 Requirements Logistician III Preferred Qualifications:

Intermediate experience with the following:

- ALMIS
- AMMIS

3.13 Training Specialist (Professional Position)

IAW ALCINST 5224.4, the Contractor will assist the UTO by performing the function of POC on training, training record or administration questions, coordinating training location, and presenting training as detailed in ALCINST 5224.4.

3.13.1 Training Specialist Duties:

Duties include, but are not limited to:

- Drafting, presenting, and updating training materials, records, and guidance to ensure personnel meet standards and maintain qualifications. Additional resources may be required as the training system evolves.
- Developing and maintaining training databases and records for all ALC employees (military, civil service, and contractors as required), providing updated training records to the Workforce Management Staff (WMS).
- Reviewing training records systematically to determine personnel qualifications and currency IAW ALCINST 5224.4 for both military and civil service employees.
- Assisting WMS with onboarding new (military, civil services, and contractors as required) employees by coordinating training data and necessary qualification courses.
- Monitoring training requirements and notify personnel sixty (60) days before any certification, licensing, or training expiration.
- Scheduling classroom training courses and ensuring computer-based training is accessible during normal working hours.
- Maintaining training databases and supporting audit teams with required data.
- Reviewing and recommending updates to ALCINSTS, syllabi, and standardization check forms in line with Commandant and ALC policies.

- Scheduling training presenters as specified by ALC and recommending additional training topics for approval.
- Ensuring classroom logistics are managed before and after courses.
- Facilitating and presenting course material on general ALC and USCG topics when a presenter is unavailable.
- Maintaining records for pilots, aircrews, and employees (military, civilian, and contractor), including maintenance qualifications.
- Scheduling all training requirements IAW Commandant and ALCINSTs, including COMDTINST M3710.1.
- Receiving and transferring personnel training records.
- Assisting the UTO in managing and resolving customer complaints.
- Conducting an annual review of legal and other requirements to ensure training curriculum remains current, recommending updates as needed.

3.13.2 Training Specialist Qualifications:

The Training Specialist must meet the following minimum qualifications:

- Strong public speaking skills, with the ability to present to large groups.
- Ability to create formal documents and reports.

3.13.3 Training Specialist Preferred Qualifications:

- Experience supporting training programs.

3.14 Program Manager

The Contractor shall provide a dedicated Program Manager (PM) who will attend to all company personnel needs including obtaining accesses for the facility. The PM will ensure Contractor employees are following all applicable CG-AIR and ALC instructions and policies, in addition to any applicable company policies. When notified of personnel issues by either the COR, CS or KO, it is expected that the PM will address these issues immediately, notifying the COR of action being taken to resolve the issue(s). The Contractor shall ensure that the PM is physically present onsite within one (1) hour of notification by the Government, unless alternative arrangements are approved in writing by the KO on a case-by-case basis. The PM will oversee any employee removals and coordinate such removals with the COR. **The PM is not billable as a separate contract line item.**

4.0 CONTRACTOR REQUIREMENTS

4.1 Personnel Management

The Contractor will complete the assigned work using qualified personnel who meet the required education, training, and experience outlined in the position qualifications. The Contractor is responsible for hiring, training, guiding, and supervising these personnel to fulfill the contract requirements. Any personnel who fail to meet the qualifications or performance standards will be removed from working under the contract.

4.2 Training

The Contractor is responsible for hiring, training, guiding, and supervising qualified personnel to perform the services outlined in this SOW. The Contractor will cover all training costs unless the

training is required due to changes in USCG or CG-AIR software, hardware, programs, procedures, or as directed by the COR. The Contractor must ensure personnel meet the qualifications specified in the labor categories and this SOW.

4.2.1 Contractor-required training for employees during normal working hours will be at the Contractor's expense and limited to one hour per month. At least fifty percent (50%) of the workforce must remain available during training sessions. Additional training outside of Government time may be conducted off-site at the Contractor's expense. Training during normal working hours must be pre-approved by the COR and will not exceed forty (40) hours per year. The Contractor may not bill the Government for this training.

4.2.2 Training for Contractor employees on topics unique to the Government, necessary for employees to perform their duties, may be required during the contract period. This training will be approved by the COR and considered part of the normal business day. It will include subjects specific to the Government as well as training related to USCG or CG-AIR processes and policies.

4.3 Key Personnel

The personnel and facilities listed below are considered essential to the performance of this contract. These may be updated during the contract period, with the consent of both parties, by adding or removing personnel or facilities as needed.

Before removing or replacing any designated personnel or facilities, the Contractor must notify the Contracting Officer in writing prior to the change taking effect. The Contractor must provide sufficient information to support the proposed change and allow the KO to assess its impact on the contract. No personnel or facilities may be removed or replaced without the KO's approval.

Key positions include the following:

- Protocol Specialist. Résumés and certifications for individuals in this position must be submitted for review and approval.

Whenever a change in Key Personnel occurs, the Contractor must submit resumes for the replacements to confirm they meet the required qualifications. The KO will review the resumes and notify the Contractor whether the proposed personnel meet the qualifications outlined in the SOW. If a resume does not meet the qualifications, the Contractor must provide a replacement resume.

4.4 Substitution of Personnel

4.4.1 The positions listed in Sections 3.3 through 3.13 are critical to the work performed under this contract and cannot be reassigned or diverted without written authorization from the KO. Before removing any personnel from these key positions, the Contractor must provide the KO with thirty (30) calendar days' advance notice and submit detailed justification to allow for evaluation of the impact on the program.

4.4.2 The Contractor agrees that personnel substitutions will not be allowed during the contract performance period unless necessitated by sudden illness, death, or termination of employment. In such cases, the Contractor must promptly notify the KO and provide the information IAW Section 4.4.1.

4.4.3 If personnel become unavailable to work under the contract for more than twenty-one (21) consecutive calendar days or are expected to contribute significantly less effort than outlined in the proposal, the Contractor must propose a substitution IAW Section 4.4.1.

4.4.4 All proposed substitutions must be submitted in writing to the KO at least fifteen (15) calendar days before the substitution takes effect. Each request must include:

- A detailed explanation of the circumstances requiring the substitution.
- A complete resume for the proposed replacement, and
- Any additional information requested by the KO to evaluate the substitution.

Proposed replacements must have qualifications equal to or greater than those of the individual being replaced, regardless of when the substitution occurs during the contract period.

4.4.5 If the KO determines that the Contractor has failed to provide suitable and timely replacements for personnel who have been reassigned, terminated, or otherwise become unavailable, and this failure impairs the successful completion of the contract, the KO may terminate the contract for default or for the Government's convenience. Alternatively, if the KO finds the Contractor at fault, the KO may adjust the contract price downward to compensate the Government for delays, losses, or damages resulting from the Contractor's actions.

4.5 Utilizing Electronic Mail (E-mail)

When Contractor personnel send emails as part of their contract performance or in relation to contract matters, they must include their first and last name, email address, and the name of their employer in the email signature. Contractors with access to Government email and online systems must have user IDs that clearly indicate their contractor status, such as including "Contractor" or the company name after their given name in the user ID. The use of email is strictly for official business purposes. Contractors are prohibited from including quotes, special sayings, or images in their email signature blocks. Any violation of this provision will result in appropriate action IAW Section 5.0.

4.5.1 The COR, or their designee, is responsible for ensuring that accounts established in Government email systems for prime or subcontractor personnel clearly identify individuals as contractor personnel in the address book display and in their email accounts. The account's detailed properties must include the individual's employer and the customer name associated with the contract. If a contractor employee no longer requires access to the Government email system, the USCG information assurance security officer who established the account must be notified immediately.

4.5.2 Contractor personnel and their subcontractors must clearly identify themselves as contractors and provide the name of their employer when attending meetings or participating in

situations—such as telephone conversations, electronic correspondence, or other communications—where their actions could be misconstrued as official Government acts.

4.6 Employee Appearance

Contractor employees are required to maintain a professional appearance that is appropriate for their position and the specific activities they are engaged in on any given workday. The following list, while not exhaustive, identifies examples of inappropriate attire: short shorts, halter tops or other bare midriff tops, see-through shirts or blouses, flip-flops, tattered clothing, and clothing displaying images or messages that are sexual in nature or otherwise offensive.

4.7 Conflict of Interest

The Contractor will not hire any individual who is a Government employee if such employment could create a conflict of interest. Additionally, the Contractor must obtain express written consent from the KO before hiring any Government employee, whether uniformed or civilian, on a full-time or part-time basis.

4.8 Employee Conduct

Contractor personnel will adhere to all applicable Government regulations, policies, and procedures when visiting or working at Government facilities. This includes, but is not limited to, compliance with requirements related to fire safety, sanitation, environmental protection, security, restricted areas, the wearing of DHS uniform components, and the possession of weapons

4.8.1 Contractor personnel will conduct themselves in a professional, efficient, courteous, and businesslike manner at all times.

4.8.2 All personnel will be thoroughly familiar with, and operate IAW, all safety and environmental requirements relevant to their work. Personnel must possess sufficient proficiency in English to read and understand printed regulations, detailed verbal and written instructions, operating procedures, and training materials.

4.8.3 The contractor will promptly remove from the site any individual whose continued presence is determined by the KO to be contrary to the public interest or inconsistent with national security.

4.8.4 The contractor will promptly remove from the site any individual whose continued presence is determined by the KO to be contrary to the public interest or inconsistent with national security.

4.8.5 Except as otherwise specified in this document, the quality of services provided shall meet the highest standards of the applicable profession, trade, or field. All services must be performed or directly supervised by individuals who are fully qualified and possess any licenses required by law.

4.9 Workplace Environment

The USCG is dedicated to maintaining a work environment free from discrimination and harassment of any kind. All members of the workforce are entitled to be treated with dignity and respect, without regard to race, color, national origin, religion, sex, age, disability, genetic information, marital status, parental status, political affiliation, or any other characteristic protected by applicable law and policy.

4.10 Cooperation with Investigative Processes

Contractors and their personnel are required to fully cooperate with any investigations concerning events or allegations that may impact or involve the contractor or its employees, or for which they may possess relevant knowledge or documentation. The designated COR or KO will notify the company's POC prior to contacting individual contractor employees.

4.11 Supervision, Direction, or Control

At all times during performance of this contract and until the work is completed and accepted, the Contractor shall directly manage the work or assignment as coordinated through the COR.

4.11.1 Contractor personnel are employees of the Contractor and under the administrative control and supervision of the Contractor. The Contractor, through its personnel, shall perform the tasks prescribed herein. The Contractor shall select, supervise, and exercise control and direction over its employees under this contract. The Contractor shall maintain records on all personnel hired. At a minimum, the Contractor shall maintain records that support the personnel hired met the minimum qualifications of the position at the time they were hired. These records shall be made available to the KO or designee upon request.

4.11.2 The Government will not exercise supervision or control over the Contractor in the performance of services under this contract. The Contractor shall not supervise, direct, or control the activities of Government personnel or the employees of any other Contractor, except any subcontractor employed by the Contractor on this contract.

4.11.3 In performance of this contract, the Contractor's management responsibilities include, but are not limited to the following:

- Ensure employees understand the work to be performed on orders to which they are assigned.
- Ensure employees know their management chain and exhibit professional conduct to perform in the best interest of the Government.
- Ensure employees adhere to applicable laws and regulations governing Contractor performance and relationships with the Government.
- Ensure contract employees do not create actual or apparent personal service relationships.
- Ensure high quality results are achieved through task performance.

4.11.4 The Contractor shall be responsible for the actions of its personnel and its subcontractors. The Contractor shall be responsible for daily oversight of all Contractor personnel and for managing work performance on all tasks and projects on this contract. The Contractor shall establish clear organizational lines of authority and responsibility to ensure effective management and control of the resources to be assigned to the contract. The Contractor shall

provide frequent interaction and communication with members at all levels of the organization. The Contractor shall maintain continuity between the KO and the designated COR and the Contractor's business office.

4.12 Compliance with Local Regulations, Instructions, Directives

Contractor personnel shall comply with all USCG Commandant, CG-AIR and local base regulations, instructions, directives, orders, policies and special procedures. Employees caught violating any policy may be subject to immediate removal IAW Section 5.0.

4.12.1 The Contractor can find all ALCINST/directives on the ALC internal home page. The Contractor shall train employees on all ALC directives and provide confirmation to the KO and COR that the employee has received the instruction/directives within thirty (30) days of the hire date. The Contractor is responsible for complying with all revisions and ensuring the employees have the most up to date instructions/directives.

4.13 Insurance Requirements

IAW FAR clause 52.228-5, Insurance – Work on a Government Installation, the Contractor and each Subcontractor performing work under this contract on a Government installation shall be required to procure and maintain, during the entire period of performance under this contract, the following minimum insurance and shall furnish a certificate thereof (executed by an officer or employee of the insurer authorized to execute such certificates) to the KO within fifteen (15) calendar days of contract award. The certificate(s) shall contain an expiration date and an endorsement stating that, "Any cancellation or material change in the coverage adversely affecting the Government's interest shall not be effective unless the insurer or the Contractor gives advance written notice of cancellation or change to the KO".

- a. Workers compensation and employer's liability. Contractor shall comply with applicable Federal and State Workman's Compensation laws IAW the State(s) where the work is to be performed on a Government installation and shall provide for at least \$100,000 employer's liability coverage, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.
- b. General liability. General liability insurance written on the comprehensive form of policy shall provide for bodily injury of at least \$500,000 per occurrence.
- c. Automobile liability. Automobile liability insurance written on the comprehensive form of policy shall provide for bodily injury of at least \$200,000 per person and \$500,000 per occurrence and \$20,000 per occurrence for property damage.

4.14 Contractor Access

The Contractor shall only access those areas of USCG IT resources (e.g. computer equipment, networking equipment, telecommunications equipment, cabling, network drives, computer drives, network software, computer software, software programs, intranet sites, internet sites) explicitly stated in this contract and/or approved by the COR in writing as necessary for performance of work under this contract. Any attempts by Contractor personnel to gain access to any IT resources not explicitly authorized by the COR is strictly prohibited. In the event of violation of this provision, employees may be subject to the immediate removal IAW Section 5.0.

4.15 Contractor Employee Background Investigation (BI)

In the interest of safeguarding the welfare of the American people, it is required that all persons privileged to be employed in the departments and agencies of the United States Government shall be reliable, trustworthy, of good conduct and character, and of complete and unswerving loyalty to the United States. Regulations require a BI to be conducted on each Federal employee, contractor, and military member. The scope of the investigation will vary, depending on the nature of the position and degree of harm that could be caused by the individual in that position. Requirements to be investigated for the purpose of a suitability determination apply whether or not the position requires a security clearance to have access to classified information.

All persons must be properly investigated and favorably adjudicated to hold a position as a Federal employee, consultant, volunteer, contractor or military personnel. The scope and type of BI varies depending on the duties and access requirements for the position, as does the amount of time it takes to be completed.

This contract requires the contractor employee applicant to have a Tier 1 Level or higher BI completed without unfavorable adjudication in order to obtain a CAC.

4.15.1 BIs that Meet Requirements for Obtaining a CAC

The following BIs meet or exceed the requirements for obtaining a CAC, providing the contractor employee applicant has not had a break in Federal Support Services for 24 months or more:

- BI
- Single Scope BI (SSBI)
- Minimum BI (MBI)
- Limited BI (LBI)
- Single Scope BI – Periodic Reinvestigation (SSBI-PR)
- Phased Periodic Reinvestigation (PPR) (equivalent to an SSBI-PR)
- Periodic Reinvestigation (PRI)
- National Agency Check with Written Inquiries (NACI)
- Child Care NACI (CNACI)
- Access NACI (ANACI)
- National Agency Check with Local Agency and Credit Checks (NACLC)
- Periodic Reinvestigation-Secret (PRS)
- Tier 1
- Tier 2
- Tier 2R
- Tier 2RS
- Tier 2S
- Tier 3
- Tier 3R
- Tier 4
- Tier 4R
- Tier 5
- Tier 5R

4.15.2 BI Procedures for Contractor Employees Already Possessing Acceptable Previous BI

If the contractor employee applicant meets the requirements in SOW Sections 4.15 and 4.15.1, the contractor shall verify the investigation on company letterhead and email it to ALC-ContractorBI@uscg.mil, the subject line shall read, "Background Check Verification".

The contractor shall obtain a copy of the template to be used to verify the investigation on company letterhead by submitting an email request to ALC-ContractorBI@uscg.mil. The contractor will receive the template via email in response to the email request. The investigation verification must be submitted using the template provided, otherwise it will not be accepted.

4.15.3 Procedures for Initiating a BI

If the contractor employee applicant does not have a previous BI that meets the requirements in SOW Sections 4.15 and 4.15.1, the Contractor employee applicant shall follow the procedures stated herein for initiating a BI.

4.15.3.1 Initiate a Tier 1 BI

The contractor shall send a password protected email to ALC-ContractorBI@uscg.mil, the subject line shall read "Initiate Background Check". The password shall be provided in a separate email.

The email shall contain the following information for the proposed contractor employee applicant. A template containing the required information is available for use and may be requested by emailing ALC-ContractorBI@uscg.mil. Use of the available template is not required.

- First, Middle and Last Name (indicate if there is no middle name)
- Social Security Number
- Date of Birth
- City of Birth
- State of Birth
- County of Birth
- Country of Birth
- Email Address
- Telephone Number
- Driver's License Number and State
- Contract Number
- Contract Period of Performance, Start Date, and Expiration Date
- Job/Position Title
- Proposed Start Date
- Company Name
- Company Address
- Company Telephone Number
- USCG KO's Name and Telephone Number
- COR Name and Telephone Number

4.15.3.2 Complete National BI Services (NBIS) E-App

The NBIS E-App web based automated system is designed to facilitate the processing of standard investigative forms used when conducting BIs for Federal security, suitability, fitness, and credentialing purposes. The E-App allows the user to electronically enter, update and transmit his/her personal investigative data over a secure internet connection to a requesting agency. Applicants can only access the NBIS E-App system if they have been invited to do so by an appropriate official at his/her sponsoring agency. Individuals cannot pre-apply for a security clearance, nor update his/her security questionnaire unless granted access by an appropriate agency official.

The information provided in SOW Section 4.15.3.1 will be used by the USCG ALC, Information Security Division, Standards and Security Branch to set-up an account for the applicant in NBIS. Once the applicant's NBIS E-App account has been set-up, the USCG ALC, Information Security Division, Standards and Security Branch will send an invite via email notification to the applicant's email address. The contractor employee applicant will receive an email from the USCG ALC, Information Security Division, Standards and Security Branch detailing the information required and the steps to follow for completing the BI.

The applicant must complete an NBIS E-App online Questionnaire for Non-Sensitive Positions using the Standard Form SF-85. Once complete, the applicant shall submit the Standard Form SF-85 to the USCG ALC, Information Security Division, Standards and Security Branch by releasing the form as prompted in the process. The USCG ALC Information Security Division, Standards and Security Branch will then finish processing the NBIS E-App package.

4.15.3.3 Obtain Finger Prints

To obtain fingerprints, the contractor employee applicant will need to provide his/her driver's license or a Government issued ID.

The contractor employee applicant shall obtain fingerprints at one of the following locations:

a) **USCG Base Elizabeth City (Preferred Method)**

Located at: 1664 Weeksville Road, Building 63, Elizabeth City, NC 27909.

This office conducts fingerprints by appointment only and appointments can be scheduled Monday -Thursday between 0700 to 1130 and 1230 to 1500. The applicant will need to provide their driver's license or a Government issued ID. The fingerprints will be electronically submitted to the USCG Security Center.

b) **Local Sheriff's Office**

The contractor employee applicant shall inform the Sheriff's Office that the fingerprints are being conducted for a USCG BI. The applicant shall request three (3) copies of his/her fingerprints which will be provided to them on an Applicant Fingerprint Form, Form FD-258. The applicant shall submit the FD-258 forms to the USCG ALC, ISD, Standards and Security Branch located at 1664 Weeksville Road, Building 63 Elizabeth City, NC 27909. Once the fingerprints have been obtained, the USCG Base Elizabeth City will submit the Applicant Fingerprint Form, Form FD-258 to the USCG Security Center on behalf of the contractor employee applicant.

Once the fingerprints have been obtained, the USCG Base Elizabeth City will submit the Applicant Fingerprint Form, Form FD-258 to the USCG ALC, ISD, Standards and Security Branch on behalf of the Contractor employee applicant.

4.15.3.4 Complete a Declaration for Federal Employment

The contractor employee applicant shall complete the Declaration for Federal Employment using Form OF-306.

4.15.3.5 Complete a DHS Credit Release Form

The contractor employee applicant shall complete the DHS Credit Release Form using Form DHS 11000-9, if required.

4.15.3.6 Submittal of BI Supporting Documentation

The following, completed documents shall be scanned as separate documents and emailed to ALC-ContractorBI@uscg.mil, the subject line shall read "Completed Security Package".

- a) Declaration for Federal Employment, Form OF-306, if required.
- b) DHS Credit Release Form, Form DHS 11000-9, if required.
- c) If the applicant choose to obtain fingerprints from the Local Sherriff's Office, the applicant shall submit the Applicant Fingerprint Form, Form FD-258 as specified in SOW Section 4.15.3.3.

4.15.3.7 Final Steps of the BI

Once SOW Section 4.15.3.6 has been completed and submitted as specified herein, the USCG ALC, ISD, Standards and Security Branch will compile the information and forms in NBIS and submit them to the USCG Security Center.

No further action is required of the applicant unless contacted by the USCG Security Center requesting a correction or additional explanation/information in response to the information previously submitted.

4.16 Receipt of CAC and an ALC ID Badge

After the completed BI package has been submitted to the USCG Security Center and they report back with a Pre-Appr Granted via an E-mail or on a USCG Business Intelligence (CGBI) report, the Contractor employee **then and only then** may start on the contract. That applicant will also be eligible to receive an ALC ID badge to enable them to enter their workspace.

4.16.1 Completion of an Automated Information Systems User Agreement

The contractor employee applicant will be required to review and sign and date an Automated Information Systems User Acknowledgement. The Automated Information Systems User Acknowledgement is required to receive a CGOne computer account.

4.16.2 Completion of Federal Cyber Awareness Training

The contractor employee applicant is required to complete Cyber Awareness Training within four (4) business days of receiving his/her CGOne computer account and annually thereafter. This training is accessed on the CG Portal. For contractor employee applicants not located on-site at the USCG ALC facility, the COR will coordinate with the USCG ALC, ISD, Standards

and Security Branch and notify the applicant as to how they will be required to complete the training.

4.16.3 Receipt of a CAC

The USCG ALC, ISD, Standards and Security Branch will notify the contractor POC once the BI results are received. If the contractor employee applicant's BI was favorably adjudicated the USCG ALC, ISD, Standards and Security Branch will approve the applicant's application and notify the applicant that may proceed to the nearest Rapids Office to obtain his/her CAC.

4.16.3.1 Accessing USCG IT Resources

The contractor employee shall only access USCG IT resources determined by the USCG to be necessary in support of this contract. IT resources include, but are not limited to, computer, networking, and telecommunications equipment; cabling; network and computer drives; network and computer software; software programs; and intranet and internet sites.

Any attempts by the contractor employee to gain access to IT resources not explicitly authorized by the USCG is strictly prohibited. In the event of a violation or unauthorized use of IT resources, the contractor employee's access will be terminated. The contractor is solely responsible for time/delays and costs resulting from the contractor employee's unauthorized use and termination of access.

5.0 REMOVAL OR REPLACEMENT OF PERSONNEL

5.1 Removing Contractor Employees for Misconduct/Non-Performance/Security Reasons

The KO has the sole discretion to direct the Contractor to remove any employee from performing contract-related duties due to misconduct, non-performance, or security concerns. Such removal does not relieve the Contractor of its obligation to continue providing the required services under the contract. The KO will provide the Contractor with a written explanation for any decision to remove an employee.

5.1.1 The Government also reserves the right to request the removal or replacement of Contractor personnel for other reasons not specified above. In such cases, the KO will provide the Contractor with written notice at least five (5) calendar days before the effective date of removal, unless the removal is due to a policy or regulation violation that requires immediate action.

5.2 Replacement of Personnel

The Contractor is permitted a period of up to fifteen (15) calendar days to replace personnel, whether the removal or replacement is requested by the Government or initiated by the Contractor. All vacancies must be filled within this 15-day period unless the Government provides written notification that the position will not be backfilled. If the Government decides not to backfill the position, it will notify the Contractor in writing within five (5) calendar days of receiving the vacancy notice from the Contractor.

When replacements, transfers, or reassignments of Contractor personnel are made for the Contractor's convenience, all associated costs will be the Contractor's responsibility. The Contractor is allowed a break in services for up to fifteen (15) calendar days during the replacement process.

Replacements, transfers, and reassignments of Contractor personnel are deemed to be at the convenience of the Contractor when:

- Replacement of Contractor personnel is required because of voluntary or involuntary termination of employment with the Contractor.
- Contractor personnel are incapacitated due to injury or illness for a period in excess of thirty (30) days, or the death of Contractor personnel.
- Replacement or transfer of Contractor personnel is initiated at the request of the Contractor.
- Replacement or transfer of Contractor personnel is required due to termination of the contract for default.

5.3 Evaluation of Requirements upon Removal of Personnel

If personnel are removed by either the Government or the Contractor, the USCG will assess the position to determine whether it is still needed. If the USCG decides not to replace the position, the Contractor will be informed in writing. If the need to fill the position arises at a later date, the Contractor will be notified, and the standard procedures for replacing personnel will apply.

5.4 Vacancy/Non-Productive Hours Deductions

The Government will pay an FFP on a monthly basis for each Contractor employee performing the required service in support of this requirement (reference Schedule of Services, individually issued Task Orders). The Government expects a normal forty (40) hour work week, eight (8) hours a day, five (5) days a week for Contractor employees. Contractor personnel are not authorized to work outside the allotted time per week.

5.4.1 Vacancy/Non-Productive Hours Deductions Formula

A daily rate established in the Schedule of Services will be used to deduct from the monthly invoice as follows:

- Contractor employee is excessively absent.
 - For professional positions: more than twenty (20) days during the annual period of performance, not including holidays.
 - For Service Contract Labor Standard covered positions: more than 180 hours during the annual period of performance, not including holidays.
- Position vacancy: beginning on the fifteenth (15th) calendar day after the position is vacated, the daily rate will be deducted for each working day thereafter the position is vacant.

Any deviation from this deduction requires KO approval. A position is considered vacant until personnel are hired, have cleared all required in-processing steps, and have started performing work in support of this contract.

5.4.1.1 If a vacant position is filled with an employee already assigned to the contract, the deduction days are carried over from position to position.

6.0 QUALITY

6.1 Quality Assurance Surveillance Plan (QASP)

This SOW and the accompanying Quality Assurance Surveillance Plan (QASP), provided in Attachment 1, outline the performance standards and Acceptable Quality Levels (AQL) that the Contractor is required to achieve. Specific performance measurements are detailed within the QASP.

6.2 Contractor's Quality Control (QC)

The Contractor shall develop, implement, and maintain an effective QC System, which includes a written Quality Control Plan (QCP). The QCP shall establish standardized procedures and methodologies for monitoring and documenting contract performance to ensure compliance with all contract requirements. The QCP must incorporate a systematic approach to monitoring operations to ensure the delivery of acceptable services and products to the Government.

At a minimum, the QCP shall address the following elements: continuous process improvement; procedures for scheduling, conducting, and documenting inspections; identification and correction of discrepancies; corrective action procedures, including addressing Government-identified non-conformances; root cause analysis to identify and address the root cause of discrepancies and implement corrective actions to prevent recurrence; trend analysis; and procedures for collecting and addressing customer feedback and complaints.

An electronic copy of the comprehensive written QCP shall be submitted via email to the KO and COR within five (5) business days of contract award. Any subsequent changes to the QCP must also be submitted within five (5) business days for approval. Following acceptance of the initial QCP, the Contractor must obtain written approval from the KO for any proposed changes to the plan.

The Government reserves the right to conduct surveillance at the Contractor's facility to verify the existence, adequacy, and effectiveness of the QC System.

7.0 REPORTS AND MEETINGS

7.1 Monthly Progress Report

The Contractor shall submit a monthly progress report by the tenth (10th) day of each month to the COR and CS. The report shall include the previous month's accomplishments and status of projects not completed. These reports shall also consist of the following:

- Executive summary of progress on each task and deliverable to include:
 - Compliance with the Schedule
 - Significant delays
 - Any issues outstanding that the Government needs to address
 - Personnel additions or deletions
 - Measurements specified elsewhere in this SOW for the previous month
- Monthly Training Statistics Report
- Number of days each Contractor employee was absent due to vacation, sick leave, personal leave or training. The report shall also include a running total of how many days the employee has been absent for the current period of performance.
- Monthly Discrepancy Report
- Monthly Staffing Matrix

7.2 Material Inspection and Receiving Report (DD Form 250)

Upon completion of each contract requirement (or monthly increment thereof), the Contractor shall prepare and furnish to the COR and CS a DD Form 250 (DD-250), Material Inspection and Receiving Report, or an equivalent report approved by the KO, unless otherwise specified in individual task orders issued hereunder. One (1) copy of each DD-250 or approved equivalent shall be submitted with the invoice. The report shall include:

- Contract number.
- Task order number.
- DD-250 or equivalent invoice number.
- Line Item Number, Line Item description, quantity, unit price, and extended price.
- Description of any invoice deductions.
- A breakdown of travel expenses, to include all direct and indirect expenses.

7.2.1 Failure to provide the required information shall be cause for rejection of the DD-250.

7.2.2 Invoices shall not be submitted until the DD-250 has been approved by the COR. The earlier the DD-250 is received and approved by the COR, the earlier the invoice may be submitted.

7.3 Status Meetings

Upon request, the Contractor shall be available to meet with the KO and COR to discuss technical problems, personnel issues, or any work/contract matter requiring attention. The COR shall determine if the meetings will be at a Government facility or via telephone. The Contractor shall provide minutes from the meeting to the Government for concurrence.

7.3.1 The Contractor shall not contact any Government employees regarding Contractor employee performance. The Contractor shall coordinate performance reviews with the COR and KO.

7.4 Post Award Conference

The Contractor shall attend a Post Award Conference with the KO, CS and COR as scheduled by the USCG (typically within ten (10) business days after the date of award). The purpose of the Post Award Conference is to discuss technical and contracting objectives of this contract. The Post Award Conference will be held at the Government's facility, located at 1664 Weeksville Road, Elizabeth City, NC 27909 or via teleconference.

7.5 Daily Report

Contractor will provide daily, no later than (NLT) 1000 Eastern Time (ET), a status report to the CS and COR of all personnel who are teleworking, flexing their normal work hours, or out of the office (i.e., on leave).

7.6 Protection of Information

7.6.1 NDA

The Contractor shall provide a NDA form to the COR and KO for each employee NLT five (5) days after the period of performance starts. The Contractor shall submit a signed NDA form for new employees NLT five (5) days after the employee begins. The Contractor shall use the NDA identified in Attachment 2 and it shall be between the employee and company.

7.6.2 Privacy Act Information

Contractor access to information protected under the Privacy Act is required under this contract. Contractor employees shall safeguard this information against unauthorized disclosure or dissemination IAW the law and Government policy and regulation.

7.6.3 Proprietary Information

Contractor access to proprietary information is required under this contract. Contractor employees shall safeguard this information against unauthorized disclosure or dissemination IAW DHS MD 11042.1, Safeguarding Sensitive, but Unclassified (SBU) Information. SBU includes information categorized by DHS or other Government agencies as: For Official Use Only (FOUO); Official Use Only (OUO); Sensitive Homeland Security Information (SHSI); Limited Official Use (LOU); Law Enforcement Sensitive (LES); Safeguarding Information (SGI); Unclassified Controlled Nuclear Information (UCNI); and any other identifier used by other Government agencies to categorize information as SBU.

8.0 PROPERTY

8.1 Government Furnished Property

The Government will furnish all tooling, equipment, information, documentation, data, and specifications required for the performance of contract order as specified in this section. All items will be provided to the Contractor at no charge. The use of all property is authorized only for official Government business and shall only be used in the performance of this contract. The

Contractor shall return the property to the Government in the same condition as received, normal wear and tear expected.

8.1.1 Workspaces

The Government will provide suitable workspaces at CG-AIR, adequate furniture, consumables and reasonable access to telephone services to the Contractor at no cost provided that:

- The work space and office furniture used by the Contractor employees sustains only damages attributed to normal wear and tear.
- If damages are sustained that are determined to exceed the limits that exceed normal wear and tear, the KO will submit a report to the Contractor. The Contractor shall reimburse the Government for replacement costs of the office furniture and/or repair of the workspace.

8.2 Government Furnished Equipment

The Contractor will have access to scanners, printer, computer hardware, and software (relating to the tasks required for this contract). All equipment shall be maintained IAW with all applicable instructions and procedures.

8.3 Discrepancy Reports

The Contractor shall immediately report inadequacies or defective Government furnished property and equipment on a Discrepancy Report. The Contractor shall notify the COR upon loss, destruction of, or damage to, Government furnished property and equipment provided under this contract. The Contractor shall take all reasonable action to protect Government furnished property and equipment from further damage by separating the damaged and undamaged Government furnished property and equipment, and furnish to the KO and the COR a statement identifying:

- The lost, destroyed, or damaged Government property.
- The time and origin of the loss, destruction, or damage.
- An estimate for the replacement value.

8.4 Reimbursement for Damages

Reimbursement for damages to workspaces, equipment, or the cost of replacement tools will be at the cost for the Government to replace/repair the item at the time of damage. The method of reimbursement will be mutually agreed upon by the parties. Typical methods include reduction of cost from the invoice, a check provided by the Contractor to the CG-AIR Accounting Office, or the replacement of the item by the Contractor.

8.5 Damage to Contractor Supplies, Materials, Equipment, and Property

The Government will not be responsible in any way for damages to the Contractor's supplies, materials, equipment, property, and Contractor or employees' personal belongings that are caused by improper packaging and shipping procedures, fire, weather, theft, accident, or other disaster/misfortune.

9.0 SAFETY

9.1 Requirements

The Contractor is solely responsible for compliance with all federal, state and local laws, including but not limited to the OSHA (Public Law 91-596) and the resulting standards, OSHA Standard 29 CFR 1910 and any ALCI Instructions as applicable, and the protection of their employees. Under OSHA law, the employer is required to assess the workplace to identify and control hazards which can cause or likely to cause death or serious harm to employees, comply with all established OSHA safety standards, and maintain records of injury. Note: ALC Instructions are annotated because many of the USCG/ALC standards exceed the OSHA standard criteria. If a conflict is noted, the most stringent requirement takes precedence. The Government shall assume no liability or responsibility for the Contractor's compliance or non-compliance with such requirements. In addition, the Contractor is required to flow down the safety requirements/specifications to all subcontracts/subcontractors. Safety requirements listed herein that do not concern Contractor's operations or services shall be considered self-deleting as mutually agreed by the KO and the Contractor.

9.1.1 The Contractor shall be subject to safety inspections of its work sites by the Government. Contractor safety records shall be available upon request by the Contracting Officer. The Contractor shall be liable for, and shall indemnify and hold harmless the USCG against, all actions or claims pertaining to the "personal" safety requirements of employees. The contractor is required to perform hazard assessments to assess the work processes and to determine the need for personal protective equipment (PPE), including evaluation of occupational noise exposure in accordance with OSHA 29 CFR 1910 standards. The USCG will NOT provide contractors with respiratory protection, safety shoes, prescription eyewear, or any other personal items. The USCG will make available consumable personal protection equipment (PPE) of the same quality that is used by USCG employees, to include foam ear protection, disposable gloves, protective clothing, etc. However, the Contractor is solely responsible for ensuring all PPE utilized by its employees meets all OSHA requirements and fully protects its employees. Contractors have the right to provide their own PPE if desired. The USCG will not be responsible for equipment malfunctions or equipment that does not provide necessary protection. In addition, the Contractor is solely responsible for implementing and maintaining any required OSHA medical surveillance programs for its employees, including but not limited to hearing conservation and annual audiometric testing when noise exposures meet or exceed OSHA action levels. The Government is not responsible for medical examinations, hearing testing, substance abuse testing, or any other type of testing for Contractor employees.

9.2 Safety Plan

The Contractor shall maintain and implement a safety plan that encompasses all federal, state and local laws including but not limited to OSHA Public Law 91-596 and the resulting standards, OSHA Standard 29 CFR 1910 and any ALC instructions as applicable. The safety plan shall be made available for Government review upon request. The Contractor shall conduct routine and recurring surveillance to ensure all applicable safety requirements are enforced. All Contractor personnel shall be trained in all required OSHA topics and qualified to perform their duties prior to commencement of work. Non-conformance with this requirement could cause a delay in

contract performance. The Contractor shall include a clause in all subcontracts requiring the subcontractors to comply with the safety provisions of this contract, as applicable.

9.2.1 Contractor's Safety POC (to be filled out by Contractor): TBD at award

Name: _____

Phone Number: _____

Email: _____

9.3 Mishap Notification/Reporting

The Contractor shall notify the COR or the ALC Safety Office within one (1) hour of all mishaps or incidents. This will include all exposure data and all accidents resulting in death, traumatic injury, or occupational disease, damage to property, materials, supplies and equipment incidental to work performed under this contract. **Note:** It is the sole responsibility of the Contractor to report recordable injuries of its employees to OSHA.

9.3.1 A written report of the mishap/incident shall be sent within three (3) calendar days to the COR, who will forward it to the ALC Safety Office (Email listed below). For information not available at the time of initial written report, the Contractor shall provide the remaining information NLT twenty (20) calendar days after the mishap, unless an extension is granted by the ALC Safety Office.

Mishap reports shall be sent to: d05-dg-alc-seho-mishapreporting@uscg.mil.

Mishap notifications shall contain, as a minimum, the following information:

- Contract, task order number, name and title of person(s) reporting.
- Date, time and exact location of accident/incident.
- Brief narrative of accident/incident (events leading to accident/incident).
- Seho-9 Form
- Cause of accident/incident, if known.
- Estimated cost of accident/incident (material and labor to repair/replace).
- Nomenclature of equipment and personnel involved in accident/incident.
- Corrective actions (taken or proposed).
- Other pertinent information.

9.3.2 If requested by the COR, the Contractor shall immediately secure the mishap scene/damaged property and impound pertinent maintenance and training records, until released by the ALC Safety Office.

9.4 Government-Provided Safety Training

All Contractor employees are subject to up to sixteen (16) hours of mandatory safety training onsite annually. Training will be on the jobsite in 1-2 hour increments. This training in no way relieves the Contractor from developing and maintaining a safety program IAW regulations. The Contractor shall be responsible for the safety of its employees.

9.5 Environmental Hazards

The Contractor shall ensure their employees are made aware that the performance of these services will occur in industrial areas. The industrial complex at ALC has the potential to expose workers to hazardous materials, which may include, but is not limited to hexavalent chromium, cadmium, beryllium, lead and others. Areas where exposures are expected to exceed the permissible exposure limits set by 29 CFR 1910 Occupational Safety and Health Standards, Subpart Z - Toxic and Hazardous Substances are clearly marked as regulated areas. There may also be contact hazards with these materials during cleanup of dust, metal shavings, etc. The Contractor shall ensure proper protective measures are taken to ensure contracted employees are protected from these hazards. While working in regulated areas where the exposure to hazardous dust is expected, the USCG recommends, at a minimum, the use of Powered Air Purifying Respirators with a protection factor of 1000.

9.6 Environmental Compliance

The Contractor is solely responsible for the compliance of its employees with all federal, state, and local laws, regulations and policies including, but not limited to, Title 40 CFR Protection of Environmental, Title 15A North Carolina Administrative Code Environmental Quality, any ALCINSTs (including ALCINST 5224.40 Waste and Recycling Management, 5224.21 Hazardous Materials Management and 5224.22 Spill Prevention and Emergency Response), Standard Operations Procedures, Process Guides and Base Elizabeth City (host command) environmental plans and permits, as applicable to job function(s). A list of applicable training requirements is available on the ALC Portal or from the ALC Environmental Management Representative (EMR).

9.6.1 40 CFR 273.36 requires that ALL (industrial, office, etc.), employees be familiar with the facility's Universal Waste (batteries and lamps) policy and emergency response procedures.

9.6.2 ALC's Environmental Management System requires that ALL (industrial, office, etc.) employees be familiar with ALC's ISO 14001 policy and requirements.

9.6.3 Prior to performing industrial work, personnel must be training in USCG ALC environmental policies and procedures, as applicable to job function. For convenience, many site-specific training presentations are available on the ALC portal or from the ALC EMR. Guidance posts and charts are located throughout the facility and should be followed, as applicable.

9.6.4 40 CFR 112.7 requires that all employees that handle fuels be trained in the site-specific Base Elizabeth City Spill Prevention, Control and Countermeasures plan. Training must take place upon initial assignment to fuel-handling duties and annually, thereafter. Site-specific training materials are available on the ALC Portal. In addition, USCG Technical Order (CGTO) PG-85-00-170 USCG Fuel Handling Procedures (Aircraft) (section 11.B) addresses the training requirements for aviation fuel handlers.

9.6.5 Other environmental/training certifications may be required, dependent upon job function (e.g. Environmental Protection Agency certified refrigerant handler, OSHA Hazardous Waste Operations and Emergency Response certified emergency hazardous waste responder, etc.). A

list of required environmental certifications is available on the ALC Portal or from the ALC EMR.

9.6.6 The Contractor shall be subject to environmental inspections of its work sites by the Government. Contractor environmental records shall be available upon request by the Contractor Officer.

9.7 Material Storage and Use

The Contractor shall follow manufacturer's guidelines and professional recommendations for control of humidity, temperature, cleanliness, and materials handling, to include both hazardous and non-hazardous materials. All hazardous material shall be stored in an ALC approved location. In the event that any federal, state, local law, or regulation directly contradicts the manufacture's guidelines or professional recommendations, the Federal, State, or Local law, or regulation will take precedence.

9.7.1 A hazardous material control program shall be in effect to inform employees of potential hazards if and when chemicals are use, in compliance with OSHA 29 CFR 1910.2100.

9.7.2 When the Contractor supplies the hazardous materials, the Safety Data Sheets (SDS) for any material brought onto the facility shall be submitted to ALC SEHO prior to arrival. The Contractor is responsible to maintain SDSs and provide them to employees. Any unused hazardous materials should be removed by the Contractor at the end of contract performance.

9.7.3 When the government supplies hazardous materials, the Contractor shall be responsible for compliance with OSHA 29 CFR 1910.1200 for its employees. The Contractor shall follow ALC Hazardous Materials Management policies (ALCINST 5224.21).

9.8 Confined Space Entry-Civilian Contractor Requirements

If the contract requires entry into confined spaces, the following will apply:

- The Contractor shall maintain its own confined space entry program, in include providing all training, equipment, forms and all associated program functions.
- USCG regulation makes no provision for government confined space entry personnel to perform confined pace entry for contractor operations. Performance of such functions may involve assumption of liability by the USCG in the event of a mishap. Therefore, government confined space entry personnel shall not certify spaces for contractor operations or personnel expect where failure to do so would create an extreme emergency and would endanger personnel and property, and may therefore, create even greater liability. Such cases much be authorized by the Commanding Officer and shall be personally conducted and supervised by the unit confined space entry manager, except where the nature of the emergency is so extreme that delays created by seeking the Commanding Officer's approval or the personal services of the confined space entry manager would create a greater danger.
- Where USCG personnel and contractor personnel on a USCG facility are to occupy the same confined space for a given task or operation, the space in question shall be tested and certified by the USCG facility confined space Gas Free Engineer, Entry Supervision or Shipyard Competent Person IAW federal and COMDT regulations. Such testing,

certification, and subsequent notification shall in no way relieve the contractor of an pertinent statutory obligations for the safety and health of contractor of contractor personnel, or the requirement to conduct their own testing and certification, and the contractor shall be so informed.

- Exceptions: When the contract language specifically allows USCG to provide equipment to a contractor, the contractor must test and certify the suitability of that equipment and assume the risk of use thereof. The assumption of risk must be in writing. Under no circumstances shall the USCG provide gas detections or gas monitoring equipment for contractor use.

9.9 Notification of Environmental Spills/Releases

The Contractor shall comply with all applicable federal, state and local environmental laws and regulations. If the Contractor spills or releases any hazardous substance into the environment, the Contractor or its agent shall immediately report the incident to the base fire department or the local emergency response number. The incident shall also be reported to the Government Representative and/or ALC Safety Office. If the amount releases meets or exceeds the reportable quantity as listed in 40 CFR 302, the Contractor or its agent shall immediately notify the National Response Center (1-800-424-8802). The liability for the spill or release of such substances rests solely with the Contractor and its agent.

9.9.1 The Contractor shall provide the KO proof of General Liability insurance and Pollution Legal Liability insurance for both the Contractor and any sub-contractors prior to the commencement of services. The Contractor shall also be held liable for damages to Government property in the event such damages are found to be due to negligence on the part of the Contractor and shall be at no cost to the Government.

9.10 Tobacco Policy

The USCG prohibits the use of smoking tobacco and smokeless tobacco in the workplace in order to protect the health of all its workers. The workplace includes any area inside a building or facility over which the USCG has custody and control where work is performed by active duty personnel, civilian employees or personnel under contract to the USCG. The use of tobacco is prohibited in all USCG Government vehicles (including Cushman type), in all USCG aircraft, floating unit or any other aircraft contracted for use in the USCG. The use of tobacco products (smoking and smokeless) is permitted only in designated areas as defined in ALCINST 6.280.1R(2)(b)(1-4). Contractors may only use tobacco products in designated smoking areas during Government authorized division and/or shop break and lunch periods and are accountable for appropriately discarding their smoking material and/or spit tobacco. Tobacco spit and residue shall be held in containers with sealing lids to prevent odor and accidental spills and disposed of in a sanitary manner which prevents public exposure. Contractor employees found abusing the Tobacco Policy shall be subject to removal.

10.0 DELIVERABLES

The Contractor shall develop and submit all required deliverables as specified in this SOW and the following table:

ITEM	SOW SECTION	DELIVERABLE / EVENT	DUE BY	DISTRIBUTION
1	4.12.1	Contractor train employees on ALC directives	Within thirty (30) calendar days of the hire date	COR and KO
2	4.13	Insurance Requirements	Within fifteen (15) calendar days of contract award	KO
3	6.2	Contractor QCP	Within five (5) business days of contract award	COR and KO
4	7.1	Training Statistics Report	By the 10th day of each month	COR and CS
5	7.1	Staffing Matrix	By the 10th day of each month	COR and CS
6	7.1	Monthly Progress Report	By the 10th day of each month	COR and CS
7	7.2	DD-250	Monthly with invoice	COR and CS
8	7.3	Status Meeting	As requested	COR and KO
9	7.4	Post Award Conference	Within ten (10) business days post award	CS, COR, and KO
10	7.5	Daily Report	NLT 1000 ET daily	COR and CS
11	7.6.1	NDA	NLT five (5) days after employee begins	COR and KO
12	8.3	Discrepancy Report	Immediately upon discovery	COR and KO
13	9.2	Safety Plan	Upon Government request	COR and CS
14	9.3	Mishap Notification	Within one (1) hour of all mishaps or incidents	COR and ALC Safety Office

15	9.3.1	Written report of mishap	Within three (3) calendar days of mishap/incident	COR
16	11.4	Employee acknowledgement telework policies	Prior to telework authorization	COR
17	12.1	Invoice	Monthly with DD-250	COR and CS
18	13.1	Phase-In Plan	Within ten (10) business days of being notified of contract award	COR and CS
19	13.2.1	List of names of all service employees	NLT thirty (30) calendar days before completion of contract period of performance	KO
20	13.2.1	Certified list of names of all service employees	NLT ten (10) business days before completion of contract period of performance	KO

11.0 CONTRACT REQUIREMENTS

11.1 Period of Performance

The contract period of performance includes one (1) one-year base period and, if exercised, four (4) one-year option periods.

11.2 Place of Performance

The work specified in this SOW shall be primarily performed at USCG, CG-AIR, Elizabeth City, NC.

11.2.1 The Contractor may be directed to perform work across multiple product lines and divisions as needed. The mix of personnel is subject to change. In the event changes are required, the Contractor will be notified and a bilateral modification will be issued. Under special circumstance, additional locations may be identified by the KO.

11.2.2 The Government reserves the right to require Contractor personnel to “sign-in” upon entry and “sign-out” upon departure from the Government facilities. Certain Government agencies may have security requirements, which necessitate the use of building access passes. No direct charges may be made for personnel or facility security clearances.

11.3 Hours of Operation

The Government will pay an FFP each month for the required services. It is the Government’s expectation that all Contractor employees will work a standard 40-hour work week. A standard

40-hour work week is an 8-hour workday on a five (5) day per week schedule Monday through Friday (except Federal holidays). Contractor employees shall perform all work with the CG-AIR's core working hours (unless otherwise approved). Contractor employees' work hours will be at the discretion of their applicable AOR and the COR. The Contractor shall provide a work schedule for each Contractor employee to the COR and the Contractor employee's applicable AOR prior to the commencement of work and anytime a change occurs.

Contractor employees will be allotted two (2) 10-minute breaks, one to occur approximately mid-point between the schedules shift start time and lunch and another approximately mid-point between lunch and the scheduled shift end time. Breaks cannot be added to the scheduled lunch period for an extended lunch. Contractor employees may not defer or reschedule breaks to the beginning or end of the day to create a later arrival or early dismissal.

All schedules will consist of at least a thirty (30) minute lunch break. The lunch break will be scheduled at or near the midpoint of the day and cannot be used at the beginning or end of the day to shorten the basic work agreement.

The following table depicts the typical work hours for this contract but is subject to change:

Location	Between the Hours of
CG-AIR	Start time is 0600-0830 ET and the departure timeframe is 1430-1800 ET.
Headquarters, Washington D.C.	Start time is 0700-0900 ET and departure time timeframe is 1500-1700 ET.

11.3.1 The COR will attempt to notify the Contractor a minimum of fourteen (14) days prior to changes in the Contractor employee's standard work schedule. However, due to the USCG's ever changing operational schedule, the fourteen (14) day notice may not be possible.

11.3.2 The Government may opt to change the work schedule to make up for time lost due to Federal Holidays or Plant Shutdowns. The COR will notify the Contractor as soon as possible of any schedule changes for Federal Holidays or Plant Shutdowns. These make up days will not be considered overtime.

11.3.3 Contractor employees are not authorized early release (often called fifty-nine (59) minutes or four (4) hours). When early release is authorized for Government employees, every effort will be made to provide Government oversight so that the Contractor employees can continue work. However, if this is not possible, the Contractor employees shall follow their employee's procedures for time not at work.

11.3.3.1 When early release is granted due to emergency conditions (e.g., inclement weather), the Contractor employees are expected to depart at the time specified.

11.3.3.2 In the event that the Government is not able to provide oversight when an early release is granted for non-emergent reasons or for any emergent releases, the Contractor will be notified, and the employees will be required to leave early. In these instances, contract deliverable deadlines may be negotiated.

11.3.4 During the month of September, the Contractor shall ensure a minimum of 80% staffing level for Procurement Technicians are always available, unless otherwise approved by the AOR. During this time, the Contractor shall also work closely with the AORs and COR to ensure adequate coverage is available all day to respond to quick turn time actions that may occur later in the afternoon.

11.3.5 No additional compensation for overtime shall be permitted for professional positions. For positions covered under the Service Contract Act (SCA), overtime compensation may be allowed, provided such overtime work is approved in advance by the Government.

11.4 Telework

Telework is solely at the discretion of the government and is permitted only for situational purposes and for the benefit of the Government. Upon approval from the AOR, Contractor employees may be authorized to telework IAW policy set forth by CG-AIR. Contractor access to USCG networks from a remote location (telework) is a privilege granted to support Government operations and is not for the convenience of the Contractor. Telework is not a right or guarantee; Contractor employee access will be terminated for unauthorized use. The Contractor agrees to hold the USCG harmless and will not request additional time or money under the contract for delays resulting from unauthorized use. Any Contractor employee approved for telework must have a signed telework agreement on file, have completed the required telework training, and must read and acknowledge the USCG and Contractor's company telework policies prior to any telework being conducted.

Upon start of employment under this contract, each Contractor employee shall submit a request to the COR, AOR, and Program Manager requesting approval to telework. Not all positions are suited for regular telework arrangements due to onsite requirements. Position suitability will be determined by the KO and/or COR. All telework must have defined requirements and must be tracked by the COR and Program Manager.

In the event the CGOne network becomes unavailable for a continuous one-hour period and the employee is unable to work offline, the employee must report onsite to ALC or take leave during the non-availability of the CGOne network, unless otherwise notified by the Government that they cannot report onsite (e.g., inclement weather, pandemic distancing requirements, etc.)

11.4.1 Telework during Closures and Delays

Any employee that has a signed telework agreement is required to telework during closures and delays, when telework is authorized for the Government's benefit.

11.4.2 Telework Government Furnished Material/Information

For teleworking contractors, computer workstations, printers and internet connectivity will not be Government furnished and will be the responsibility of the Contractor.

11.5 Federal Holidays

Contractor personnel shall not perform work on observed Federal holidays. Government holidays are: New Year's Day, Martin Luther King Day, Presidents Day, Memorial Day, Juneteenth Independence Day, Independence Day, Labor Day, Columbus Day, Veteran's Day,

Thanksgiving Day, Christmas Day, and/or any other day designated by the President's Proclamation/Executive Order.

11.6 Closures and Delays

Closures or delays may be planned or unplanned. Plant shutdown/delay, plant closure/delay, base shutdown/delay, or base closure/delay are all treated the same for contractor employees under this contract. The requirements under this section apply to all employees working at ALC, Government leased facilities, or within the general Elizabeth City vicinity. All other Contractor employees shall follow the direction of the facility in which they are located if on travel.

11.6.1 The ALC utilizes the Regroup Mass Notification application to provide real-time alerts and critical information to all personnel.

11.6.1.1 Within thirty (30) days of the start of employment under this contract, all contractor personnel shall register an account in the Regroup Mass Notification application. The COR and/or Division/Product Line Administrative Assistant can provide additional information on the registration process. It is the contractor's responsibility to ensure all their personnel comply with this requirement.

The primary function of this mass notification system is to inform personnel of operational delays, facility closures, potential threats, or emergency situations and to provide clear directions on how to respond. The notifications include situations such as:

- Inclement Weather
- Traffic Alerts
- Plant Shutdown
- Workplace Threats

11.6.2 During a closure, the USCG base is closed for business and contractors are not allowed to be onsite. Planned closures will be determined in advance and could include the day after Thanksgiving and other days immediately preceding or following other holidays. Unplanned closures (i.e. inclement weather, etc.), not normally exceeding twenty (20) hours per employee per year, may occur on an as needed basis. The Contractor will be notified as soon as possible of any unplanned closures; however during times of inclement weather, Contractors will be advised to monitor the Regroup App.

11.6.2.1 During a delayed opening Contractors shall plan to arrive for work no more than two (2) hour(s), for example, later than they would normally be expected to arrive. Contractors shall have up to the maximum numbers of hours to arrive at work, but may arrive earlier. For example, if Contractors are scheduled to begin work at 0645, and ALC releases a notice through the Regroup App that there is a two (2) hour delay, Contractors shall arrive to work NLT 0845.

11.6.2.2 During delayed starting Contractors shall not report to CG-AIR before the announced time of opening. For example, if the Regroup Mass Notification states that ALC will open at 1000, then Contractors shall report to ALC at 1000.

11.6.2.3 Delayed opening and delayed starting times are not applicable to Contractors that are scheduled to telework the same day.

11.7 Contractor Sponsored Functions

All Contractor company functions (training, social gatherings, etc.) shall be conducted outside business working hours, at the Contractor's expense and off the USCG Complexes. This shall include any disciplinary actions or discussions leading to disciplinary actions. Exceptions may be allowed with approval.

11.7.1 The Contractor shall not hold interviews at the Government's location.

11.8 Government Sponsored Functions

Government sponsored functions (to include ALC and USCG sponsored functions) are not deemed to be part of the Contractor's normal duties (i.e. holiday gatherings, USCG Day, ALC, etc.). The USCG will make every effort to give the Contractor employee the option to work in lieu of attending the function. In the event that the Government is unable to continue normal operations or if the Contractor employee attends the Government sponsored function, they shall follow their employer's procedures for time not at work.

11.8.1 Meetings required for the performance of duties scheduled in the assigned work center on an as required basis are acceptable during the business day.

11.9 Inspection and Acceptance Criteria

All work is subject to Government Quality Assurance (QA) review in process and upon completion for compliance with requirements, instructions, specifications, shop practices, and procedures. Any work that is considered unsatisfactory shall be corrected at no additional cost to the USCG. Work will not be accepted by the Government until the COR considers all work complete and acceptable.

11.10 Government Led Investigations

The USCG is committed to a work environment free from discrimination, including harassment, of any kind. Every member of the workforce has the right to be treated with dignity and respect, without regard to race, color, national origin, religion, sex (including gender identity, sexual orientation, and pregnancy), age, disability, genetic information, marital status, parental status, political affiliation, or any other basis protected by law and policy.

Contractors and their employees are required and expected to cooperate in any investigation of events or allegations which might affect or involve the contractor and its employees, or to which they may have relevant knowledge or documentation. The assigned COR or KO will inform the company's Program Manager or identified POC prior to individual contractor employees being contacted.

11.11 Continuity of Support

The contractor will ensure that the contractually required level of support for this requirement is maintained at all times. The Government may request the contractor to reassign positions from one CG-AIR division to another as needed. Administrative Assistant Services positions may be temporarily reassigned to a different CG-AIR division for up to ten (10) business days without

additional written approval from the KO. This flexibility enables Administrative Assistant Services positions to assist other divisions in managing shifting workloads and changes as they occur.

11.12 Contractor On-Site Operations at Government Facilities

The Contractor shall ensure that all employees maintain a professional appearance appropriate to their respective positions. All Contractor personnel must be clearly identified by a distinctive nameplate, emblem, or patch prominently displayed on an outer garment. This identification must not pose a Foreign Object Debris (FOD) hazard and must clearly indicate the individual as a representative of the contracted firm.

11.12.1 As part of the orientation process, contract employees will be issued a Government Identification (ID) badge. The Government ID badge must be returned to the COR or another designated Government employee upon the employee's dismissal, contract completion, or termination. Failure to return the Government ID badge may result in withholding payment of the final invoice for that employee. Contractor personnel are required to wear the Government ID badge at all times while performing work under this contract at a Government site. Unless otherwise specified in the contract, the ID badge must be worn in a conspicuous location on the front of exterior clothing and above the waist, except in cases where safety or health considerations, such as FOD hazards, prohibit such placement.

11.12.2 A list of issued ID cards shall be provided to the COR prior to the start of contract performance. This list must be updated as necessary to reflect any changes in contractor or subcontractor personnel.

11.12.3 Common Access Cards (CACs) will be issued to contractor employees through the Contractor Verification System and will serve as the official DHS ID card for contractor personnel. The CAC will be used to gain access to DHS/ DoW installations and buildings, as well as to access DHS/DoW networks and secure websites, as required. The CAC must be returned to the COR or another designated Government employee upon the employee's dismissal, contract completion, or termination. Failure to return the CAC may result in withholding payment of the final invoice for that employee.

11.13 Contractor Visits to Government Facilities

Offsite Contractor personnel (prime Contractor or Subcontractor) that are not employed through this task order shall not be onboard the USCG ALC complex without approval from the COR and/or KO. Offsite Contractor personnel who need to obtain visitor approval for purposes directly related to this task order shall submit a request to the COR and CS at least seven (7) business days prior to the proposed visit.

The request shall identify the following:

- Date and time of the visit/meeting.
- Purpose of the visit/meeting.
- The Government officials that you would like in attendance.

The COR will provide a written response in regard to approval or denial of the request. The COR will ensure a visitor's request is completed and identifies to the Contractor a POC to escort the visiting personnel on and off ALC's property. Contractors shall hold meetings with their employees offsite and outside of business working hours. Any deviations from the aforementioned policy will be reflected negatively in the Contractor Performance Assessment Reporting System (CPARS) report.

Contractor employees visiting Government facilities must wear an ID badge that, at a minimum, includes the contractor's name, the employee's photograph, name, and badge expiration date. Visiting contractor personnel are required to adhere to all Government escort policies and procedures. Additionally, contractor employees must clearly identify themselves as contractors when their status is not immediately evident and ensure that all ID and visitor badges are prominently displayed above the waist and in plain view at all times.

12.0 INVOICING

12.1 Invoicing Instructions

The Contractor's invoice and the completed Material Inspection and Receiving Report (DD-250) shall be submitted IAW FAR 52.212-4 to the designated billing office for payment as noted below. The Contractor shall also submit copies to the CS and the COR. The final invoice submitted under the awarded contract, shall be clearly marked and labeled as the final invoice. The Contractor is HIGHLY encouraged to submit invoices electronically to ALC-Fiscal@uscg.mil.

Chief, Fiscal Branch
USCG ALC
Fiscal Branch, Bldg. 63
1664 Weeksville Road
Elizabeth City, NC 27909
Contract Number: (To be assigned at time of award)
Task Order Number: (To be assigned at time of award)

12.1.1 Failure to provide the required information shall be cause for rejection of the invoice.

12.2 Invoice Submittal Timelines

Invoices are required to be submitted at the following times:

- After approval of the DD-250 IAW Section 7.2.

12.3 Payment Information

All payments will be made electronically IAW FAR 52.232-33.

13.0 TRANSITION PLAN

13.1 Phase-in

During the phase-in period, the Contractor shall take all actions necessary for a smooth transition of the contracted operations. The Government will make all facilities and equipment accessible to the Contractor. The Contractor shall recruit and hire necessary personnel, obtain required

certifications and clearances, attend post-award conference, and accomplish any necessary training to support the requirements of the contract. The Contractor shall submit a phase-in plan within ten (10) business days of being notified of the award to the CS and COR. At a minimum, phase-in plan shall include:

- Detailed explanation of anything that will prevent the timely transition to full operational capability.
- IAW FAR 52.222-41(n), information on efforts made to fill positions with qualified employees employed under the predecessor contract whose employment will be terminated as a result of award of the contract or the expiration of the contract under which the employees were hired.

13.2 Phase-out

Thirty (30) days prior to the completion of this contract (to include option periods); an observation period may occur, at which time, management personnel of the incoming workforce may observe operations and performance methods of the incumbent Contractor. This will allow for the orderly turnover of facilities, equipment, and records and will help to ensure the continuity of service. The incumbent Contractor shall not defer any requirements for the purpose of avoiding responsibility or transferring such responsibility to the succeeding Contractor. The incumbent Contractor shall fully cooperate with the succeeding Contractor and the Government.

13.2.1 The incumbent Contractor shall establish and when directed by the KO, implement a plan for the smooth and orderly transfer of contract responsibility to the successor Contractor. The incumbent Contractor's phase-out procedures shall not disrupt or adversely impact the day-to-day Government operations. The Contractor shall also provide the following information:

- NLT thirty (30) calendar days before the completion of the contract period of performance, the Contractor shall furnish the KO with a list of the names of all service employees working under the contract and any subcontract at the time the list is submitted.
- NLT ten (10) business days before the completion of the contract period of performance, the Contractor shall furnish the KO with a certified list of the names of all service employees employed within the last month of contract performance.

13.2.2 All automated data files in the possession of the Contractor are the property of the Government and shall be turned over to the KO or the COR at the completion or termination of the contract. Additionally, all records related to the execution of the current contract shall be returned to the Government as electronic copies that are readable and accessible by the Government.

14.0 TRAVEL

As directed by the KO, the Contractor may be required to travel to various locations to effectively perform the requirements of this task order. The Government will reimburse the Contractor for allowable travel and subsistence costs incurred by the Contractor in performance of the task order and determined to be IAW FAR 31.205-46. Any travel commenced without KO approval is fully the responsibility of the Contractor and will not be authorized for payment.

The Contractor shall be responsible for obtaining written approval from the COR, providing a Travel Request Form fourteen (14) business days PRIOR to the start of any required travel, unless otherwise directed by the KO. The COR will inform the Contractor of any requirements pertaining to the trip (i.e., Air or Rental Car, how many rental cars are authorized, travel dates, etc.). Travel completed without prior COR or CS approval, or travel that differs from what has been authorized by the COR will not be reimbursed.

The Contractor agrees, in the performance of necessary travel, to use the lowest cost mode commensurate with the requirements of the mission and IAW good traffic management principles.

Any travel costs that exceed the applicable per diem rates for the location of the required travel not approved by the KO prior to the commencement of travel, will not be reviewed or approved post travel. The Contractor is responsible for all additional costs that exceed the per diem rate. Hotel rates and hotel tax amounts will be adjusted to reflect the General Services Administration (GSA) travel per diem rates authorized for the location of approved travel.

14.1 Travel Reimbursement

The travel reimbursable herein includes only that travel (commercial carrier, or private automobile or auto rental) performed from the Contractor's typical work location to the site of work, between the sites of work, and from the site of work to the Contractor's typical work location. Travel performed for personal convenience (including daily travel to and from work) will not be reimbursed hereunder.

To be reimbursed for travel, the Contractor shall invoice for travel no later than the month immediately following. Travel shall be reimbursed on a cost basis exclusive of any fee including, but is not limited to, General and Administrative (G&A) costs. The Contractor's invoices shall include receipts or other evidence substantiating actual costs incurred for authorized travel. The documentation shall include, but is not limited to, legible copies of all receipts on letterhead (such as lodging, car rental, airline tickets, parking, tolls, etc.). Receipts shall not be submitted with the invoice for payment, but only to the COR and CS for approval/confirmation.

No travel time shall be charged for work performed within a 50-mile radius of ALC. Per Diem for travel on work assigned under this task order will be reimbursed to employees consistent with company policy, but not to exceed the amount authorized in the FAR 31.205-46.

QUALITY ASSURANCE SURVEILLANCE PLAN

Administrative Support Services

Prepared by:
United States Coast Guard, Aviation Logistics Center, Business Operations Division
1060 Consolidate Road
HMF2
Elizabeth City, NC 27909

1.0 INTRODUCTION

This Quality Assurance Surveillance Plan (QASP) sets forth the procedures and guidelines the United States Coast Guard (USCG), CG-AIR will use in ensuring the required performance standards and/or Acceptable Quality Levels (AQL) defined in the Administrative Support Services Statement of Work (SOW) are achieved by the Contractor.

1.1 The QASP can be changed during the contract period of performance. It is intended to be a living document that should be revised or modified as circumstances warrant. Either the Contractor or the Government may suggest changes to the QASP. Bilateral changes, via modification to the contract, may be made to the plan at any time during contract performance. Such changes may not entitle the Contractor to equitable adjustments or to any other compensation for performance in a prior period.

2.0 PURPOSE

The QASP provides USCG with the ability to conduct surveillance activities of Contractor performance during the life of the contract. The QASP details how and when Contractor performance will be monitored, evaluated, and documented with regards to the SOW.

2.1 The QASP is intended to accomplish the following:

- Define the role and responsibilities of participating Government officials.
- Define the required Performance Standards/AQL.
- Define the methods of Quality Assurance (QA) Surveillance that will be employed by the Government in assessing the Contractor's performance.
- Define Contractor reporting requirements.

3.0 ROLES AND RESPONSIBILITIES OF GOVERNMENT REPRESENTATIVES

3.1 Contracting Officer

The Contracting Officer has full authority to enter into, administer, or terminate contracts and make related determinations and findings on behalf of the Government. The Contracting Officer ensures performance of all necessary actions for effective contracting as well as ensures compliance with the terms of the contract and safeguards the interests of the Government in the contractual relationship. It is the Contracting Officer that assures the Contractor receives impartial, fair, and equitable treatment under the contract. The Contracting Officer is ultimately responsible for the final determination of the adequacy of the Contractor's performance.

3.2 Contract Specialist

The Contract Specialist administers all aspects of the contract and will be the Contractor's primary Point of Contact (POC) for all contract related matters. The Contract Specialist will also be responsible for day-to-day monitoring of the Contractor's performance in the area of contract compliance, contract administration, cost control, and reviewing the Contracting Officer's Representative's (COR) assessment of the Contractor's performance.

3.3 COR

The COR is the Contractor's primary POC for all technical items related to the contract and is responsible for the administration of this surveillance plan. The COR is responsible for

monitoring, assessing, and communicating the technical performance of the Contractor and assisting the Contractor.

4.0 REQUIRED PERFORMANCE STANDARDS/AQL

The Contractor shall provide all services IAW the SOW. The performance standards/AQL are included in the SOW and in section 6.0 of this QASP. The AQL are structured to allow the Contractor to manage how the work is performed.

5.0 METHODS OF QUALITY ASSURANCE (QA) SURVEILLANCE

5.1 Contractor Performance Assessment Report System (CPARS)

The Government CPARS will be utilized to document Contractor performance during the life of the contract. This report will be generated yearly or more frequently if necessary to document positive or negative performance. These reports will also become part of the electronic database ultimately consolidated under the Past Performance Information Retrieval System (PPIRS) for past performance evaluations for future contracts. The Contractor should understand that these reports will remain in a database for at least three (3) years and will be available to all Government agencies for source selection purposes.

5.1.1 CPARS Evaluation Areas

The CPARS will evaluate the following areas:

- Quality of Product or Service – Assess the Contractor's conformance to contract requirements, specifications and standards of good workmanship (e.g. commonly accepted technical, professional, environmental, or safety and health standards).
- Schedule – Assess the timeliness of the Contractor against the completion of the contract, contracts, milestones, delivery schedules, and administrative requirements (e.g. efforts that contribute to or effect the schedule variance).
- Business Relations – Assess the integration and coordination of all activity needed to execute the contract, specifically the timeliness, completeness and quality of problem identification, corrective action plans, proposal submittals, the Contractor's history of reasonable and cooperative behavior (to include timely identification of issues in controversy), customer satisfaction, timely award and management of subcontracts.
- Management of Key Personnel – Assess the Contractor's performance in selecting, retaining, supporting, and replacing, when necessary, key personnel.
- Regulatory Compliance – Assess whether the Contractor has complied with all contract clause requirements, reporting requirements, and the requirements set forth in this QASP.
- Any other important areas unique to the contract or those that cannot be captured elsewhere, as deemed necessary by the Contracting Officer.

5.1.2 CPARS Evaluation Ratings

The evaluation ratings in CPARS are as follows:

- Exceptional (Dark Blue) – Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the task and/or sub-

task being assessed was accomplished with few minor problems for which corrective actions taken by the Contractor were highly effective.

- Very Good (Purple) – Performance meets contractual requirements and exceeds some to the Government’s benefit. The contractual performance of the task and/or sub-task being assessed was accomplished with some minor problems for which corrective actions taken by the Contractor were effective.
- Satisfactory (Green) – Performance meets contractual requirements. The contractual performance of the task and/or sub-task contain some minor problems for which corrective actions taken by the Contractor appear or were satisfactory.
- Marginal (Yellow) – Performance does not meet some contractual requirements. The contractual performance of the task and/or sub-task being assessed reflect a serious problem for which the Contractor has not yet identified corrective actions. The Contractor’s proposed actions appear only marginally effective or were not fully implemented.
- Unsatisfactory (Red) – Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the task and/or sub-task contains a serious problem(s) for which the Contractor’s actions appear or were ineffective.

5.1.3 The top two ratings (Very Good and Exceptional) are only available if the Contractor exceeds the Government requirements at no additional cost to the Government. The COR will identify performance levels that may result in higher evaluation.

5.2 Performance Standards/AQL Surveillance

The COR will utilize one or more of the following methods to monitor the performance standards/AQL:

- Random monitoring – a sampling method in which each unit of the population has an equal chance of being selected. This method is done to determine whether the Contractor’s performance of a particular task for a given period meets the performance requirement based on randomly selected samples of the task.
- 100% Inspection – method is an inspection where specific characteristics of every performance unit are examined and tested to determine conformance with requirements.
- Periodic Inspection – evaluates tasks selected using a methodology other than 100% inspection or random monitoring.

5.2.1 The USCG shall use these surveillance techniques to monitor performance and review performance reports furnished by the Contractor to determine whether the performance standards/AQLs have been met. If the Contractor has not met the minimum requirements, it may be asked to develop a corrective action plan to show how and by what date they intend to bring performance up to the required levels.

6.0 PERFORMANCE REQUIREMENTS SUMMARY (PRS)

The PRS plays an integral role in the administration of the contract. In addition to any applicable inspection clauses or other related terms and conditions contained in the contract, the PRS shall serve as a primary tool for inspection and acceptance of services as facilitated by the COR. Evaluation of the Contractor’s overall performance shall be IAW the performance standards set

forth in section 6.2, and will be conducted by the COR. The PRS constitutes a material aspect of the contract and will not be changed or otherwise modified without prior written approval of the Contracting Officer

6.1 Incentive/Disincentive

100% achievement of the AQLs established in section 6.2 during each period of performance will result in positive evaluations in CPARS. No additional incentives will be authorized for achievement of the AQLs. Failure to meet the AQLs during any contract period of performance may result in negative evaluation ratings for quality, schedule, and/or management in CPARS.

6.1.1 Positive performance consists of a rating of exceptional, very good, or satisfactory. Negative performance consists of a rating of marginal or unsatisfactory.

6.2 PRS Table

Task	Performance Objective(s)	Acceptable Quality Level (AQL)	Method of Surveillance	Incentive / Disincentive
Complete all Required Tasks by the established deadlines.	The work shall be submitted with no technical errors or omissions.	100%	Various methods as stated in section 5.2 of this QASP.	See section 6.1 of this QASP.
	The work shall be submitted by the due date.	100%	Various methods as stated in section 5.2 of this QASP.	See section 6.1 of this QASP.

Note 1: The Contractor will not be penalized for delays caused by the USCG.
